

EM RESUSCITATION SIMULATION COURSE

BASIC

The background features a complex pattern of thin, vertical, slightly wavy lines in various shades of blue and grey, creating a textured, rain-like effect. This pattern is overlaid on a background that transitions from a light grey at the top to a darker grey at the bottom. A solid, medium-blue horizontal band spans the width of the image, positioned below the patterned area. The text 'Scenario 1' is written in a white, sans-serif font within this blue band.

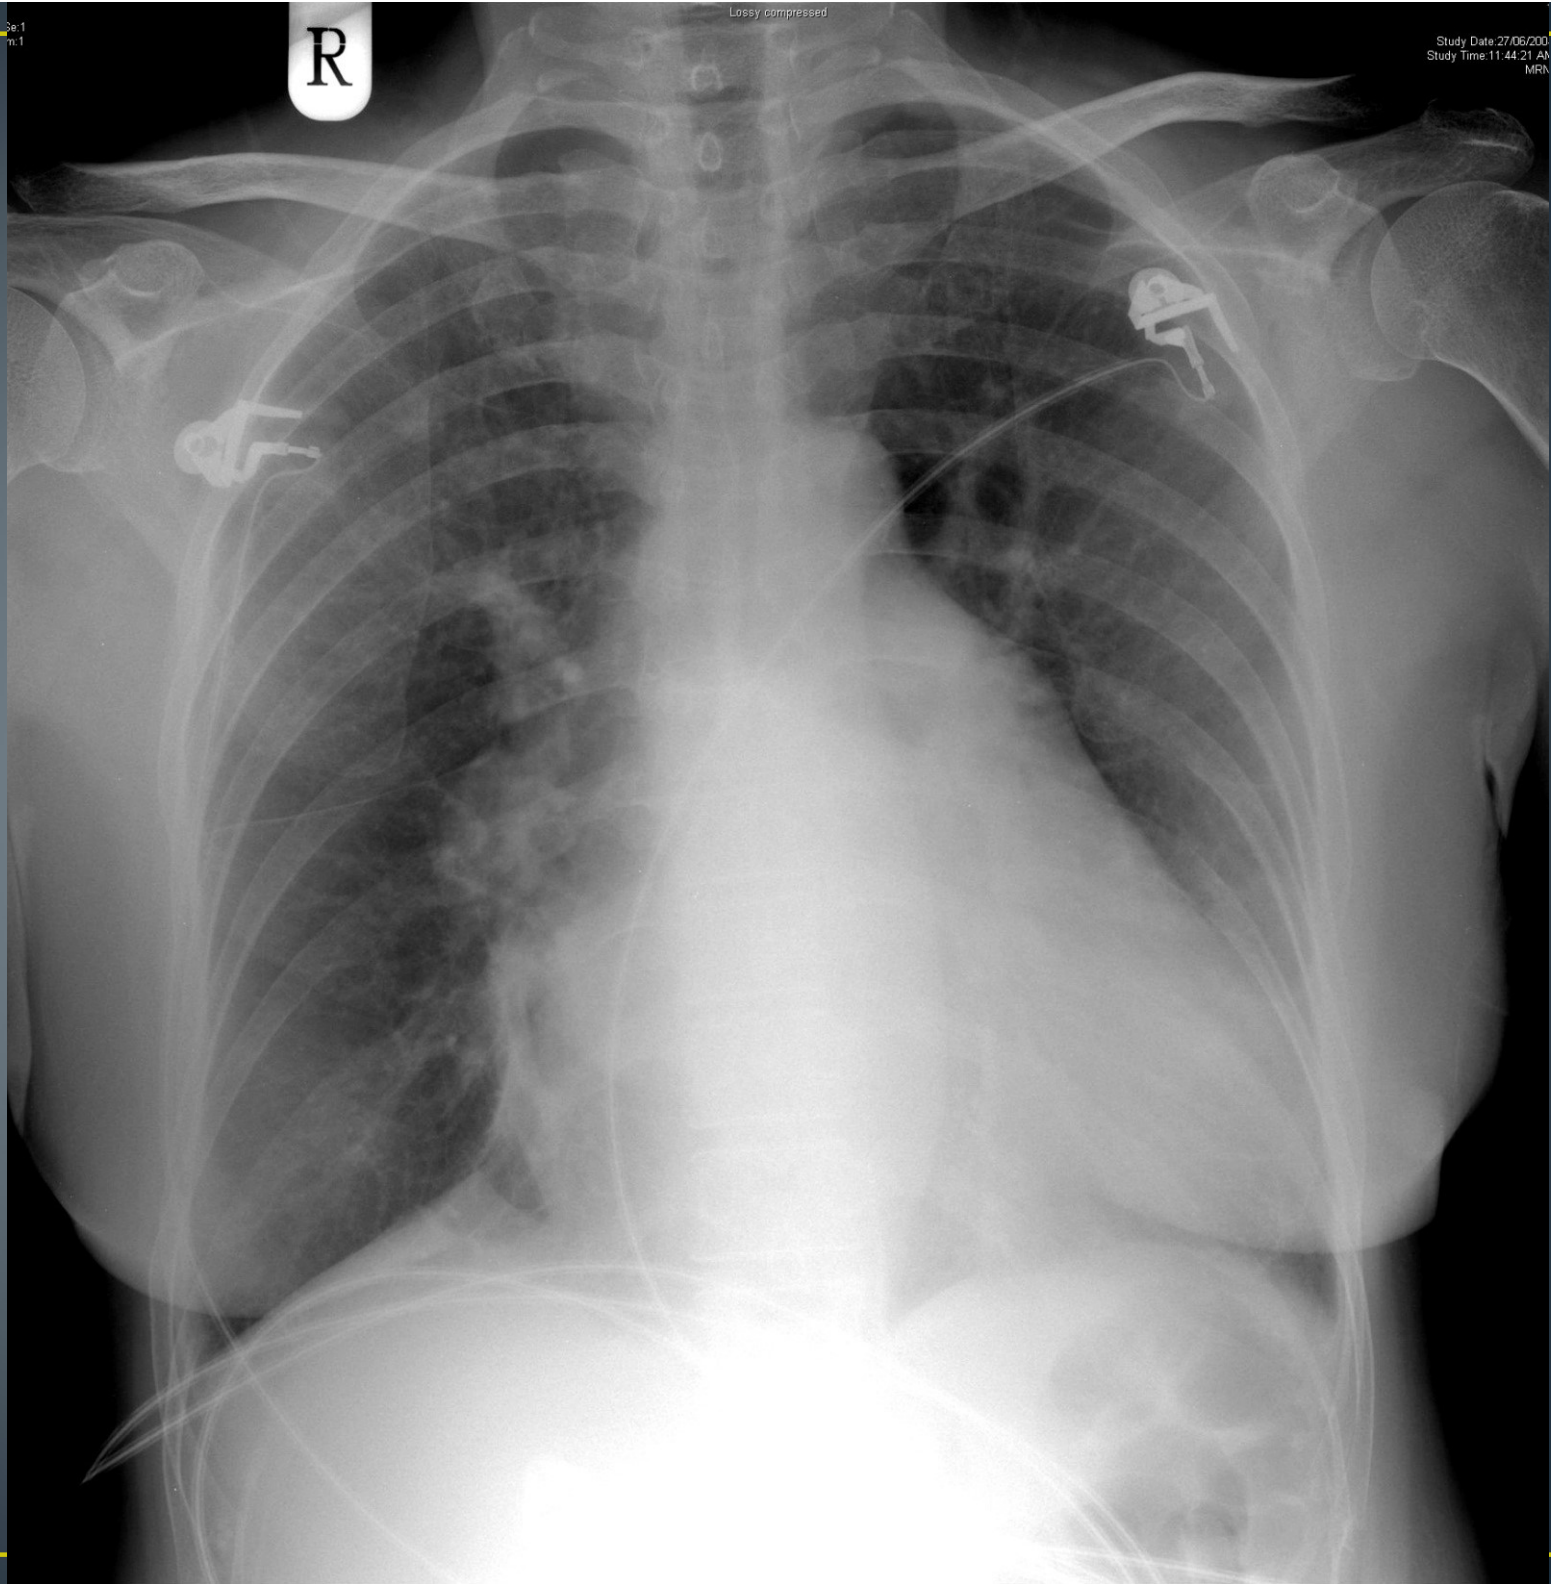

Scenario 1

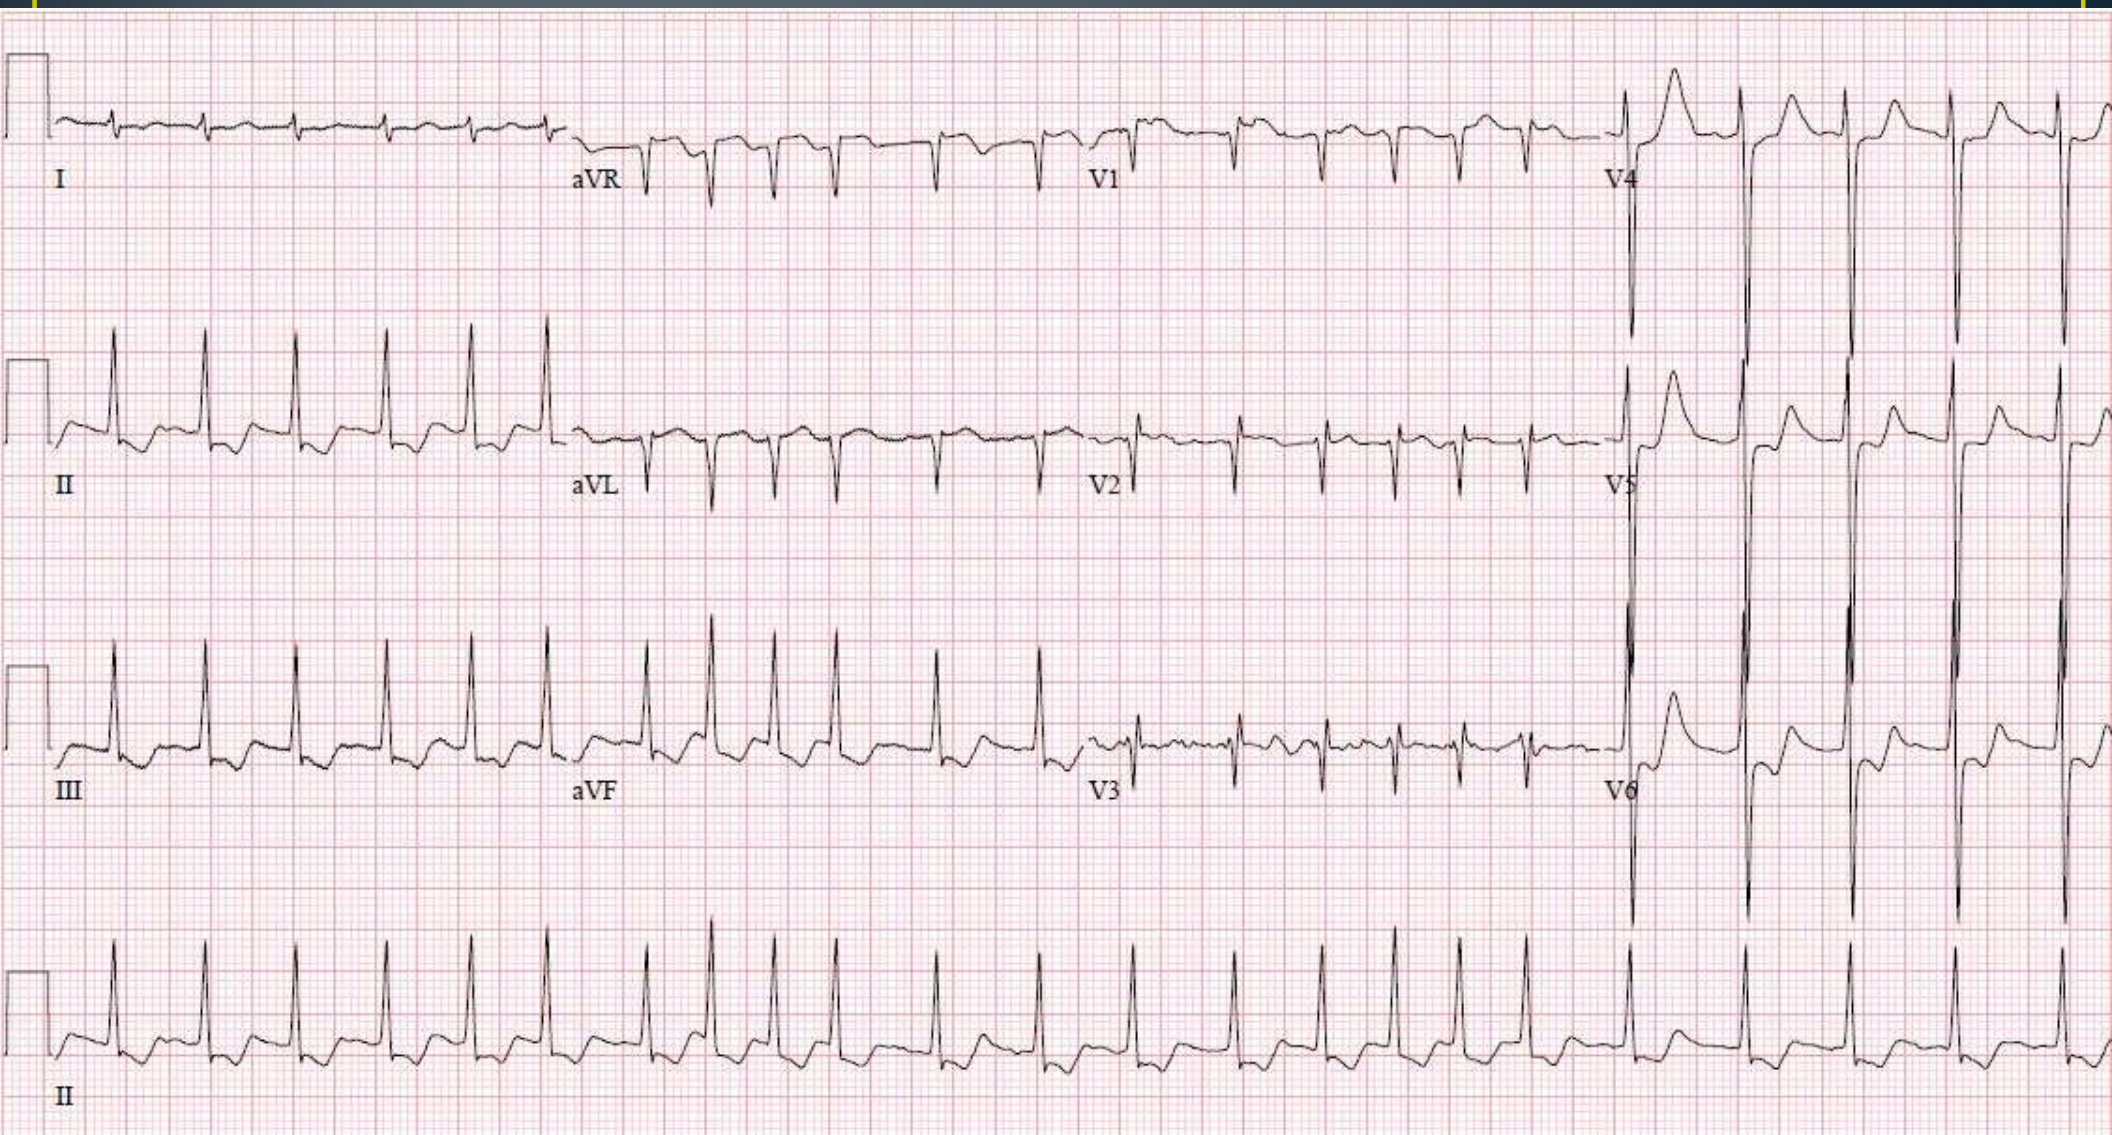

The image features an abstract background with a light gray gradient and numerous thin, vertical, slightly wavy lines in a muted blue color. A solid, medium-blue horizontal bar spans the width of the image, positioned in the lower half. The text "Scenario 2" is written in a white, sans-serif font within this bar.

RESUS

AP SIT

C157
VFPD

Transport critically ill patient to ICU

Learning Point:

- Basic function of ventilator machine
- How to hold an ETT to avoid dislodgement (Normal patient vs patient on spinal nursing)
- Ventilator strategy for asthma/COPD
- Troubleshooting problems (Desaturation & Hypotension)

Ventilator Strategy for Asthma/COPD

TV	6mls/kg of IBW
RR	6-8 breaths/Min, If breath stacking, reduce RR, (allow permissive hypercapnia)
PEEP	0 (as low as possible)
I:E ratio	1:4
FiO2	Titrate to SPO2 target

Desaturation & Hypotension

Desaturation (DOPES)

D	Displacement of ETT
O	Obstruction of ETT (tube kink, secretions, clots)
P	Patient factor: PTx, pulmonary Embolism, Pulmonary Edema, Bronchospasm
E	Equipment: Ventilator
S	Stacked breathing

Approach:

1) Patient to ventilator approach

-> disconnect from ventilator, manual bag and give 100% O₂, feel for any resistance, if minimal resistance, problem lies with the machine

2) MASH approach

Movement of chest wall

Arterial saturation (SaO₂)

Skin colour

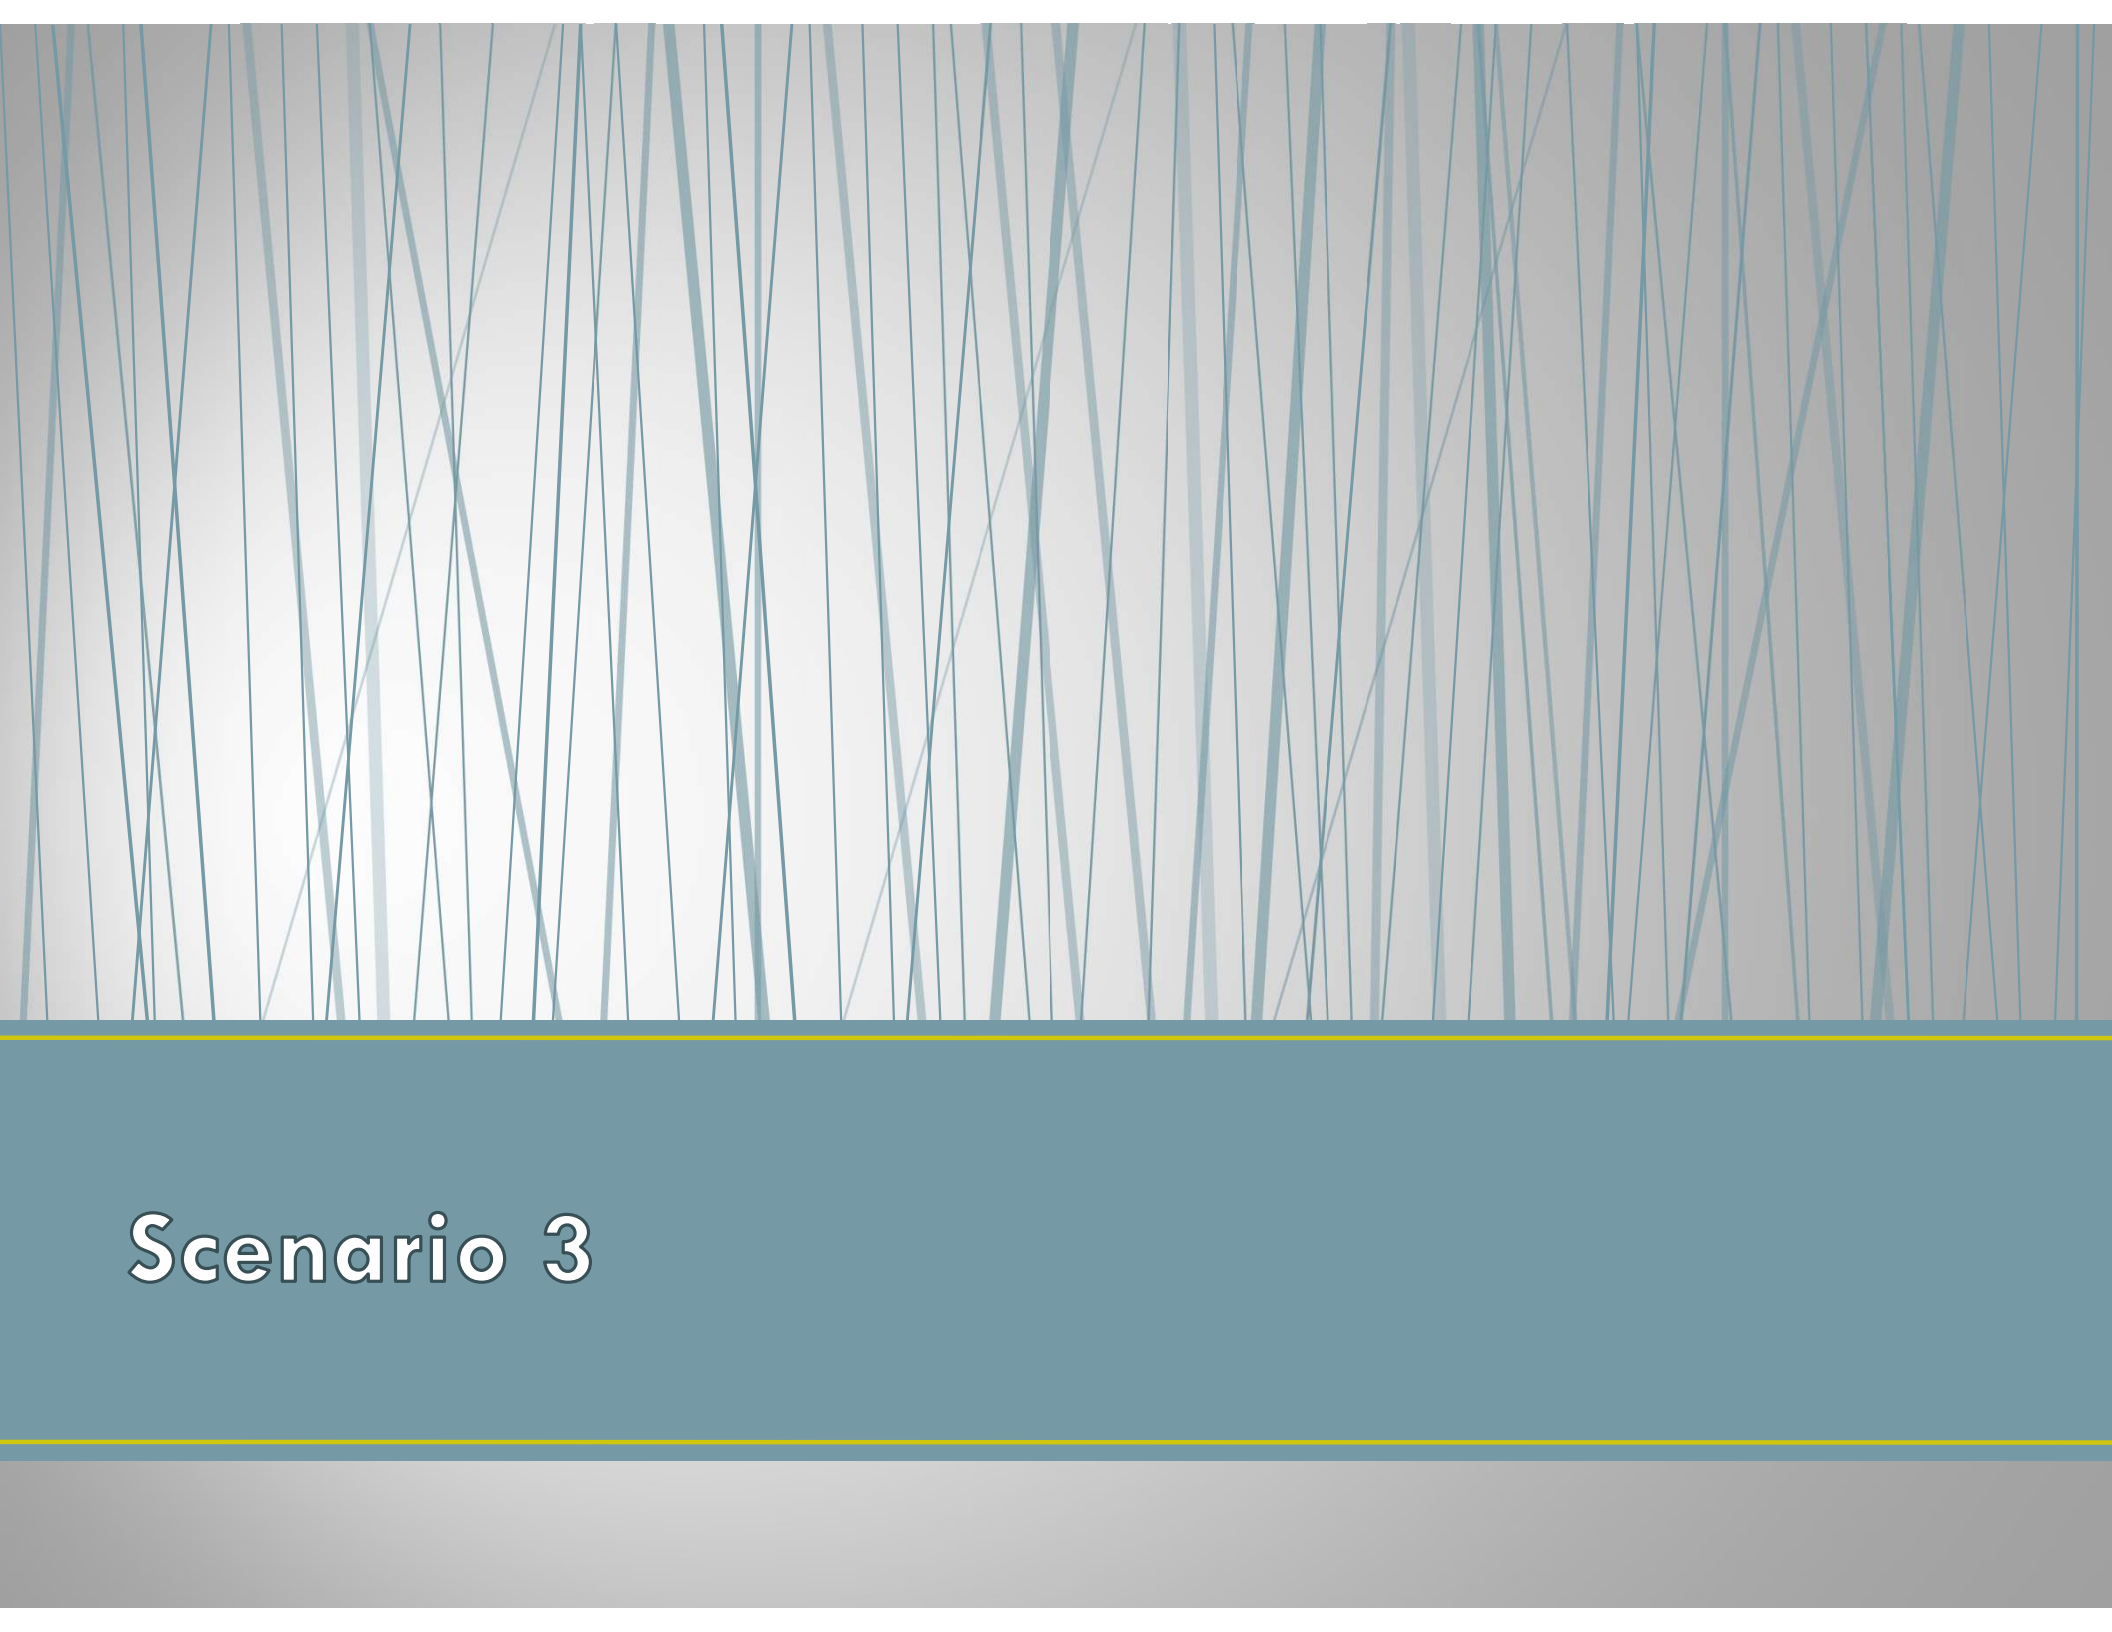

Hemodynamic instability

Hypotension

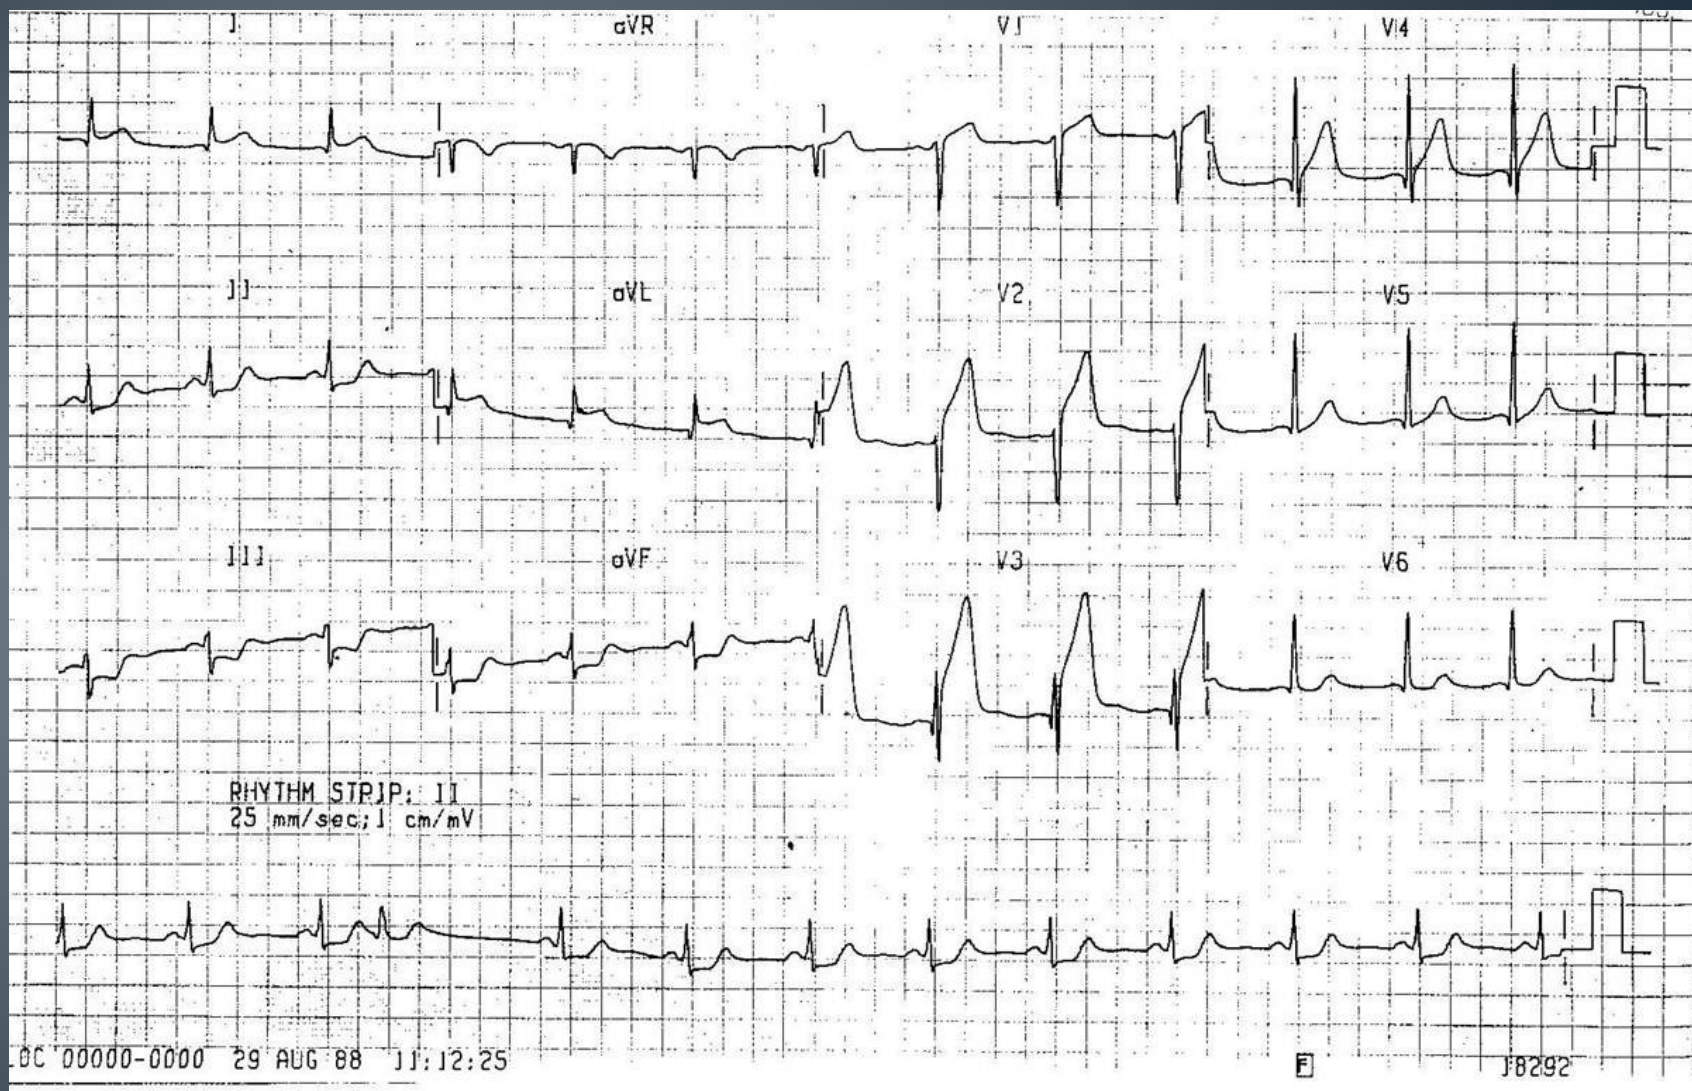

Shocks	Hemorrhagic, Septic, obstructive, cardiogenic, neurogenic, iatrogenic
Drugs	Phenylephrine/Push dose adrenaline Inotrope infusion Fluid Bolus

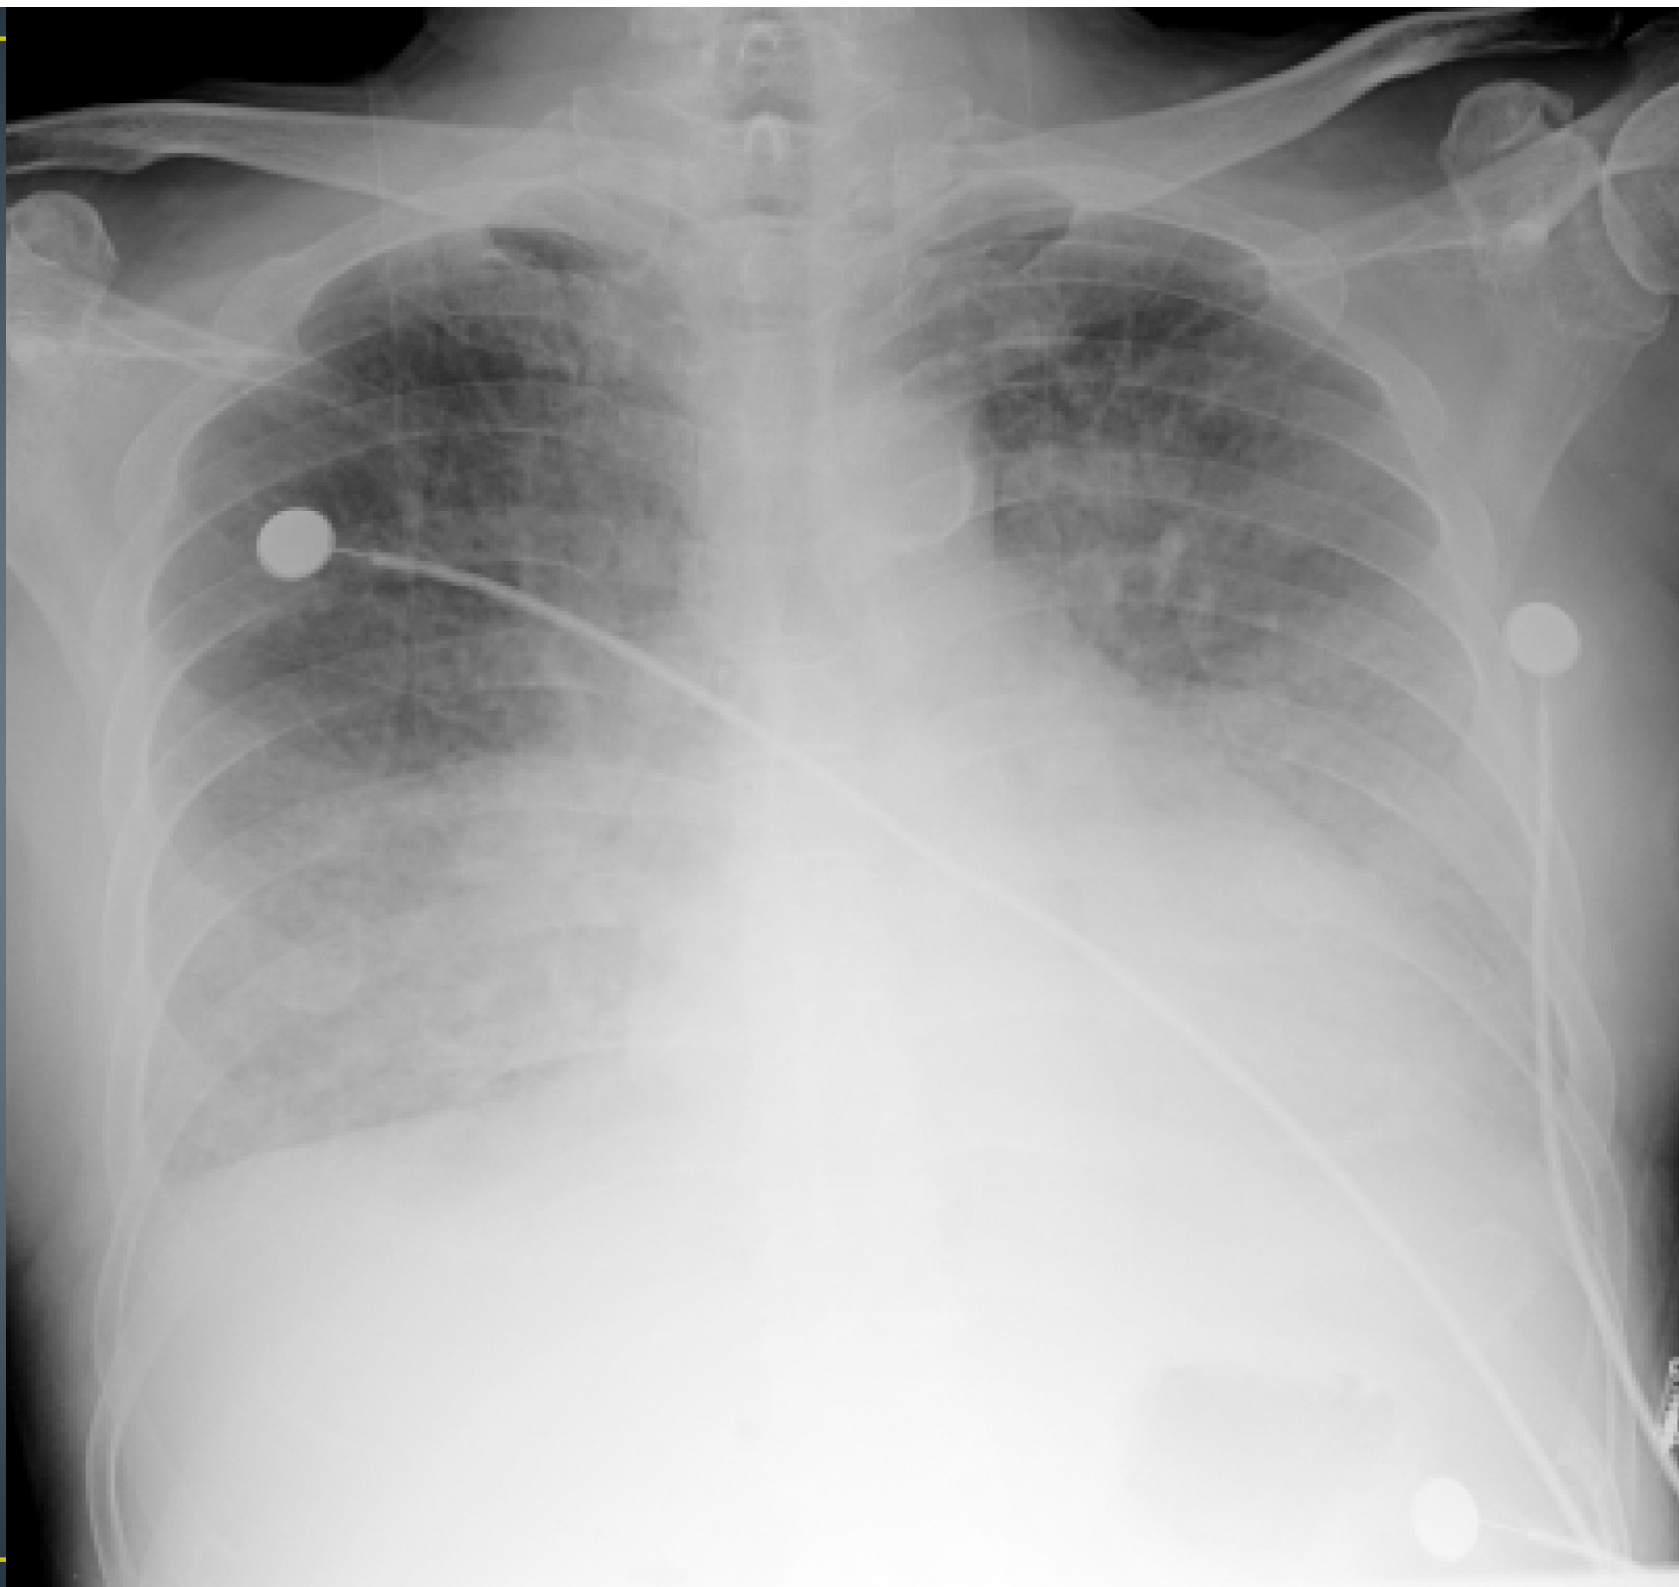

Receptor Profile Receptor location & hemodynamic effect with agonists						
V1 Vascular ↑ Constriction	V2 Kidney Fluid Retention	α-1 Vasculature ↑ Constriction ↑ SVR/MAP	β-1 Myocardium ↑ Chronotropy ↑ Inotropy	β-2 Pulmonary ↑ Bronchodilation	dopamine Vascular & Kidney ↑ Dilation ↓ SVR/MAP

Vasopressin	-	-	-	-	↑	↔

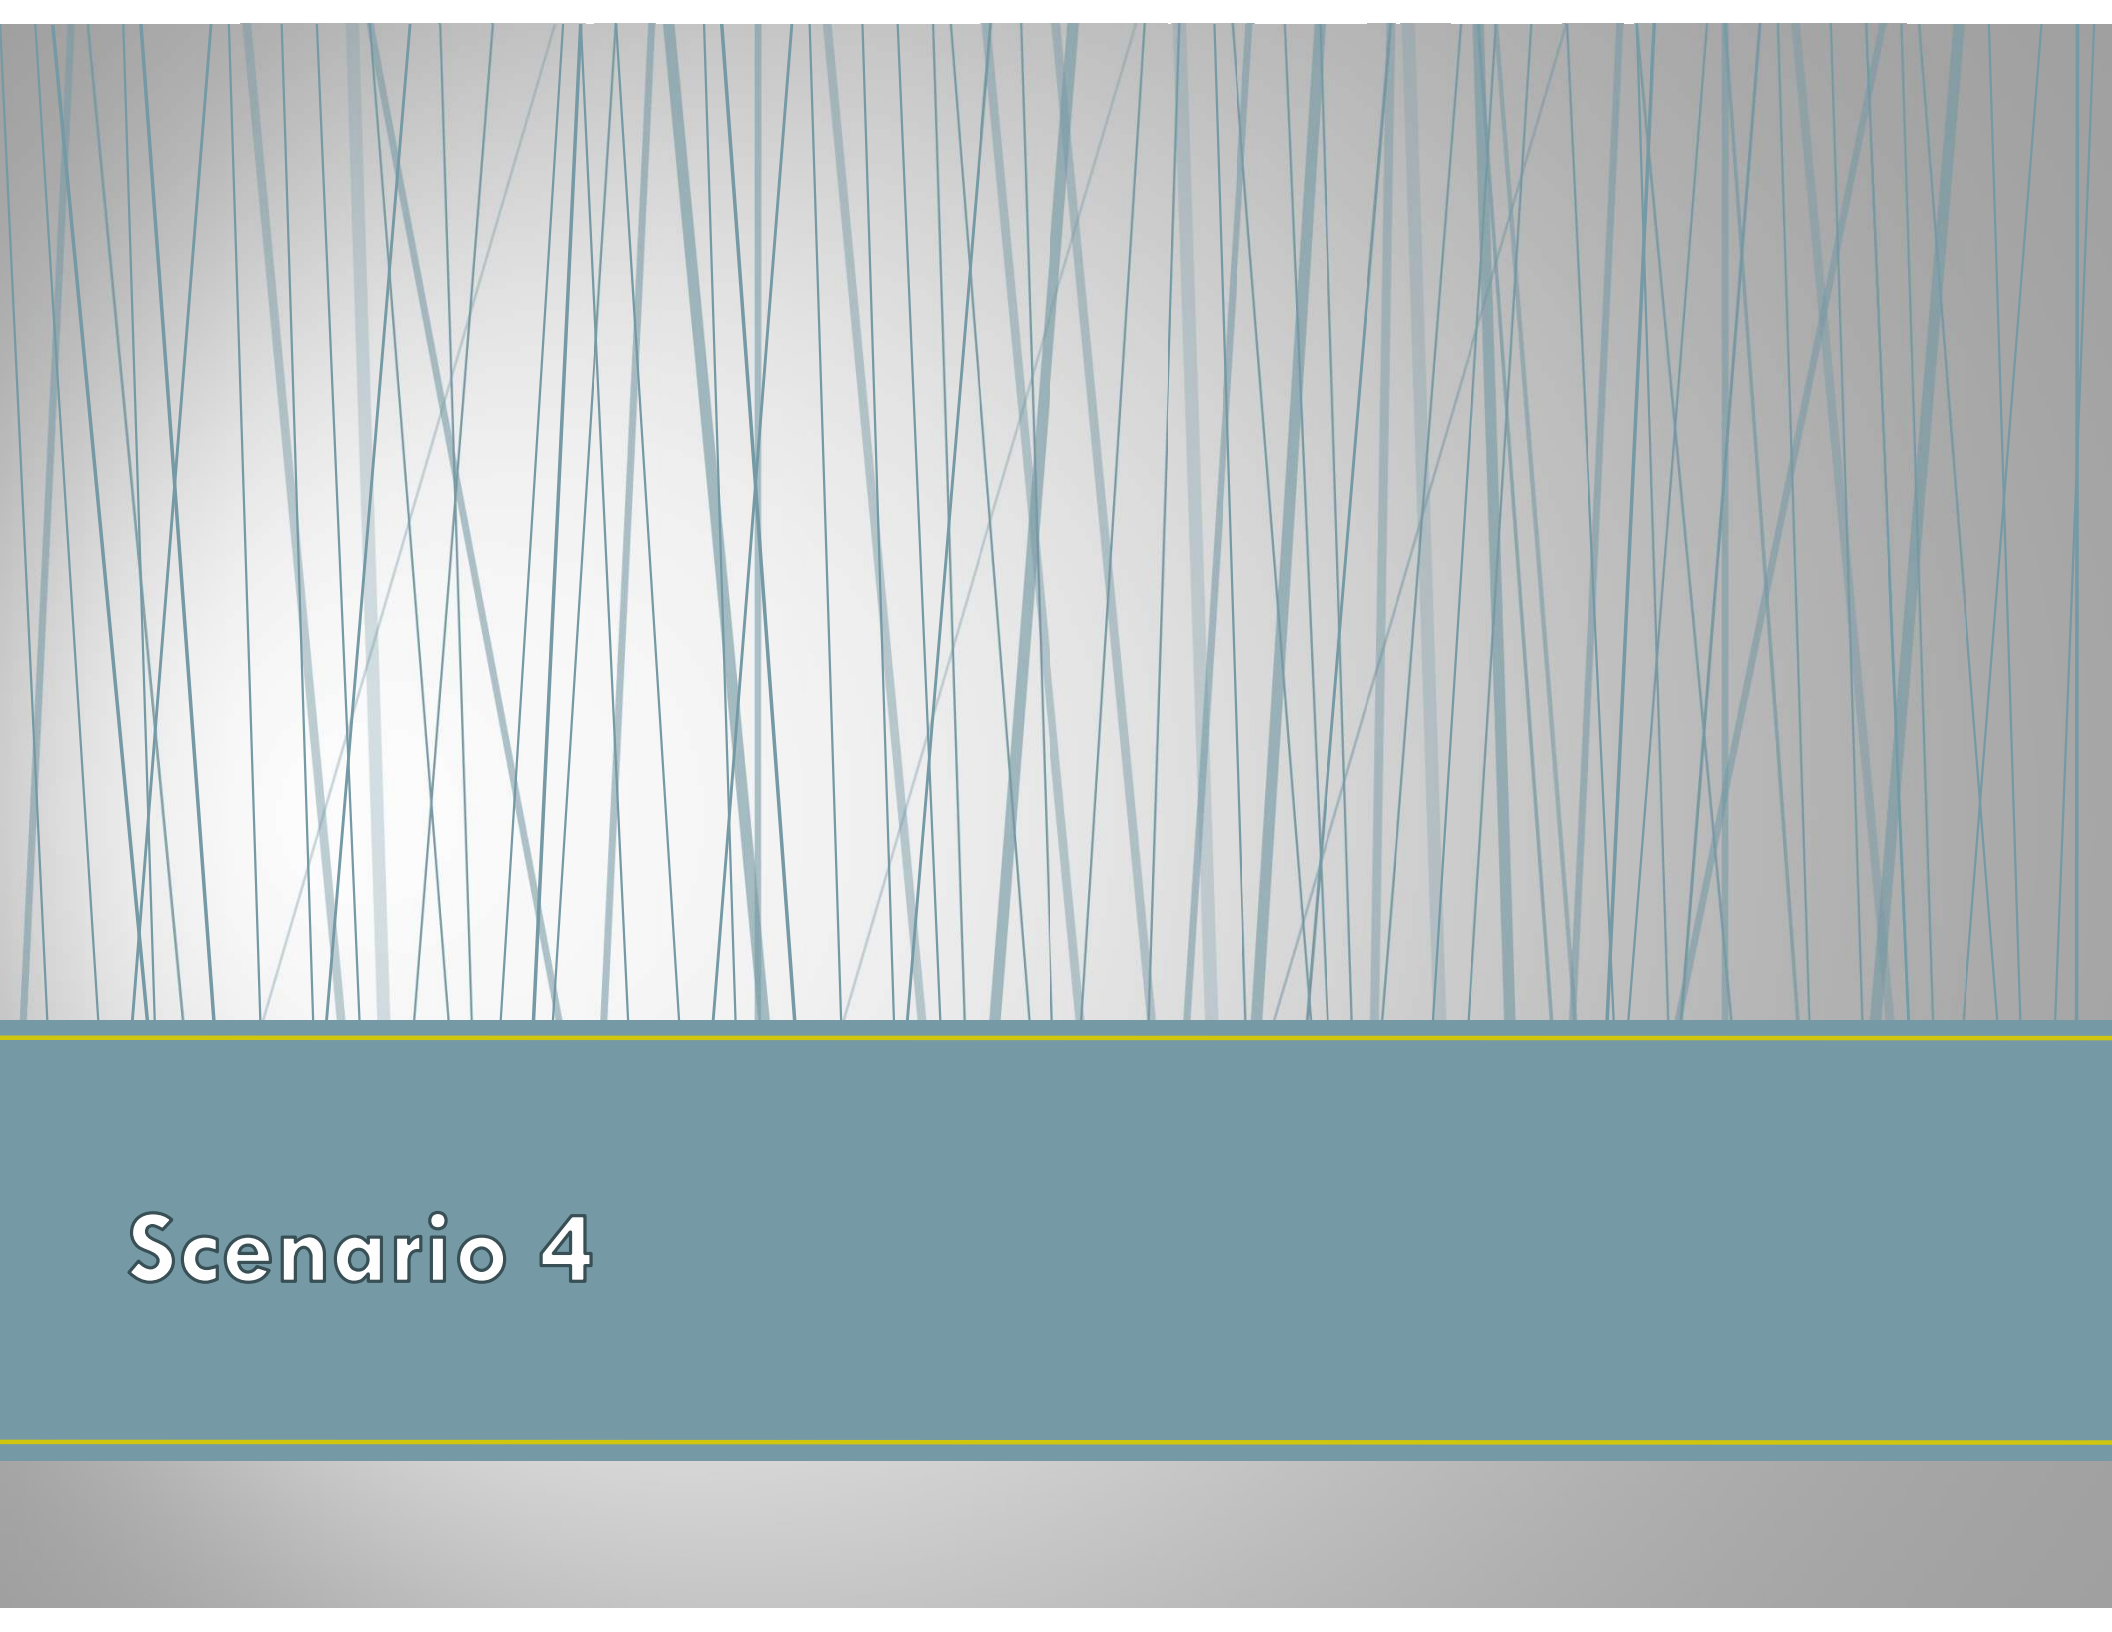

Created by Ashley Barlow PharmD @theABofPharmaC

The background features a series of thin, vertical, light blue lines of varying heights and positions, creating a textured, rain-like effect. These lines are set against a light gray background. A solid, medium-blue horizontal band spans the width of the image, positioned below the vertical lines. At the bottom, there is a thin, solid gray horizontal band.

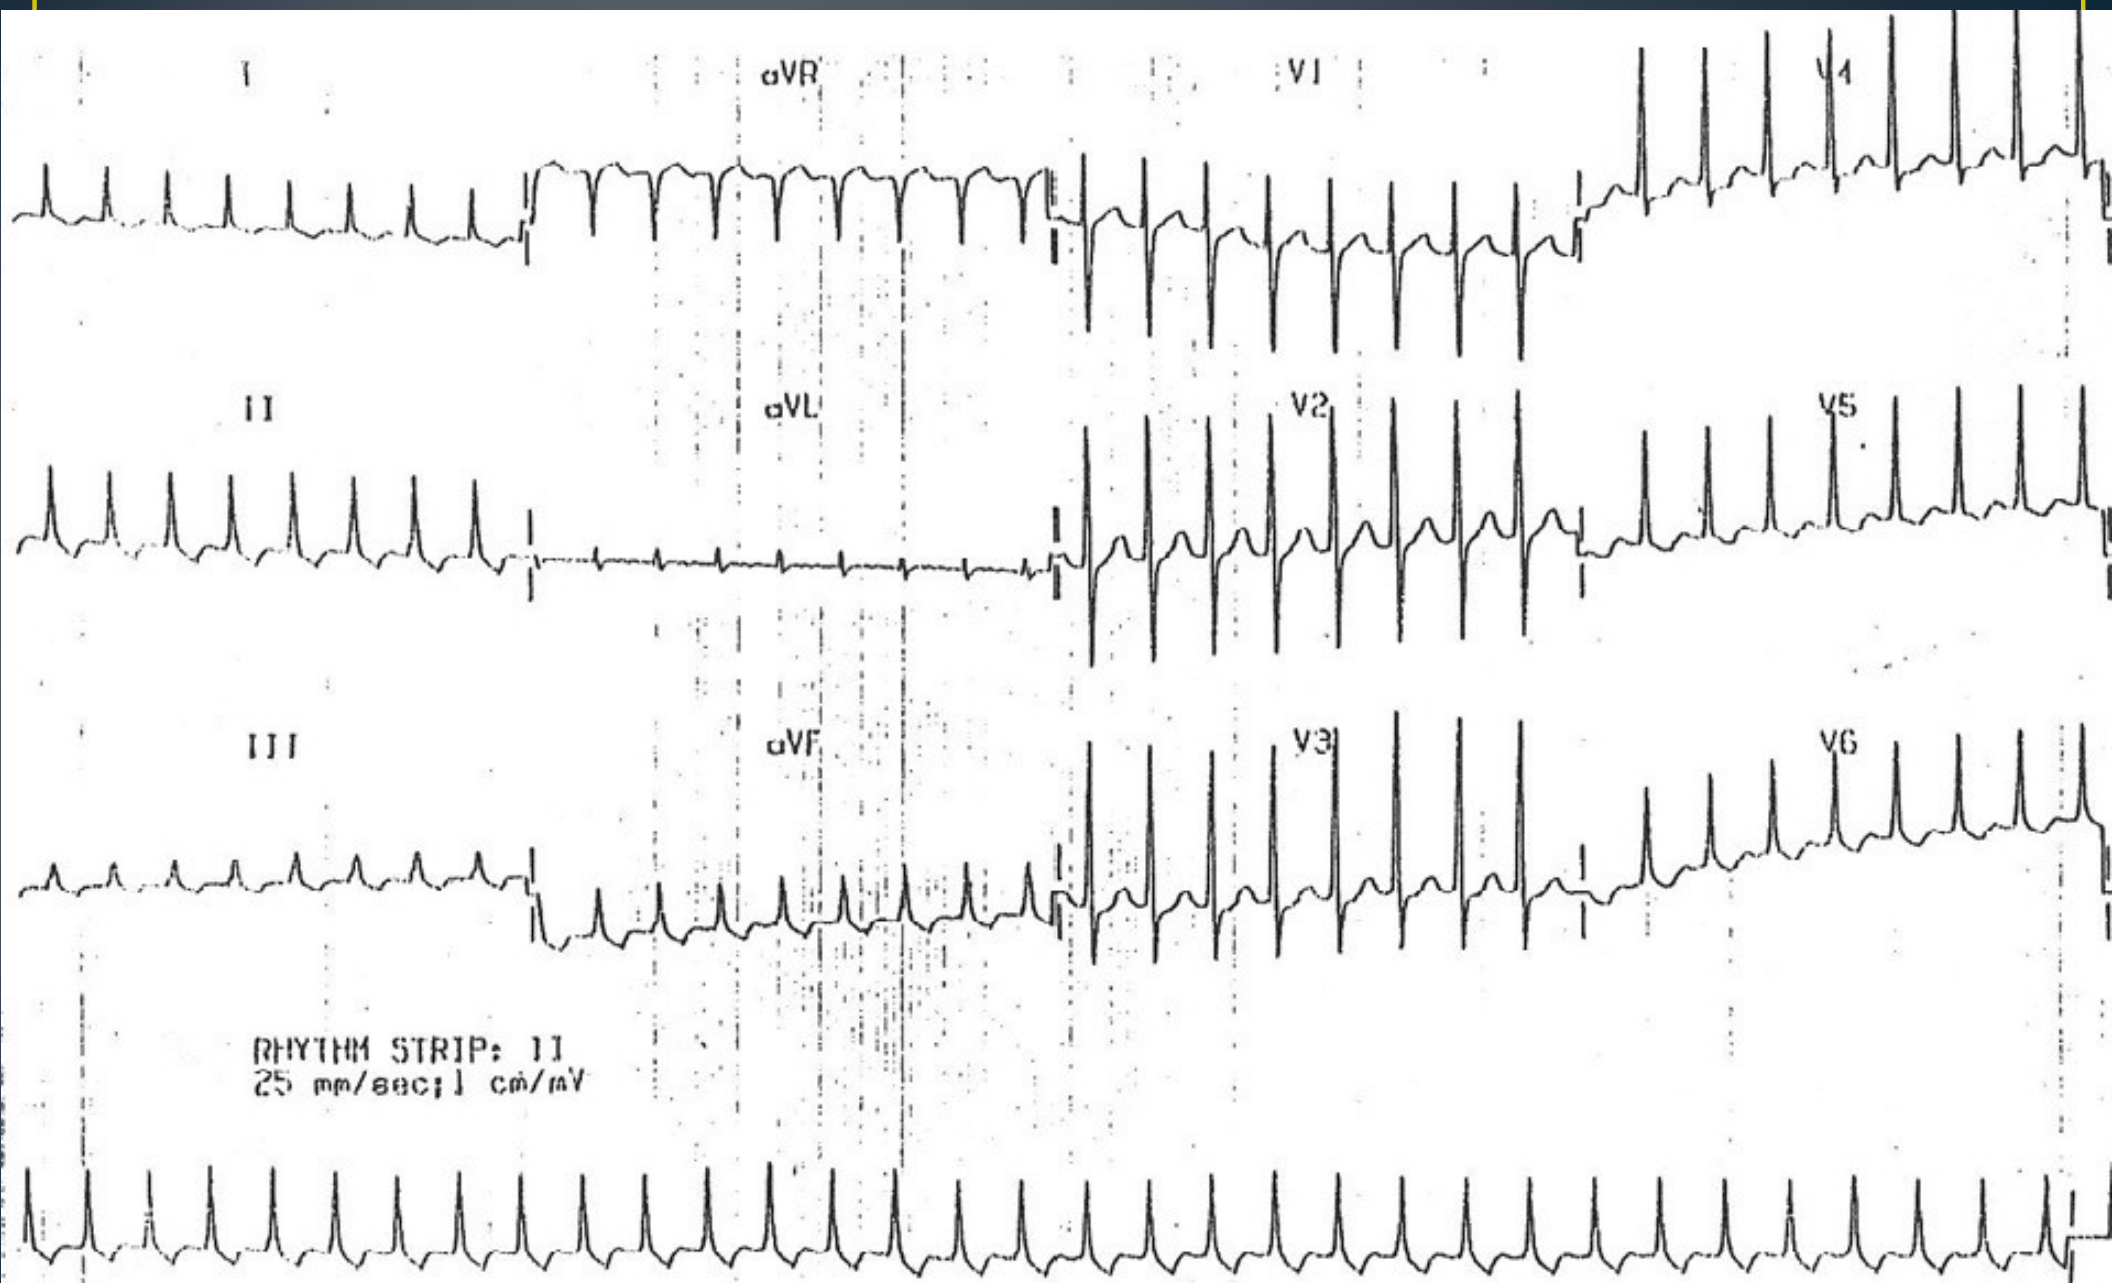

Scenario 3

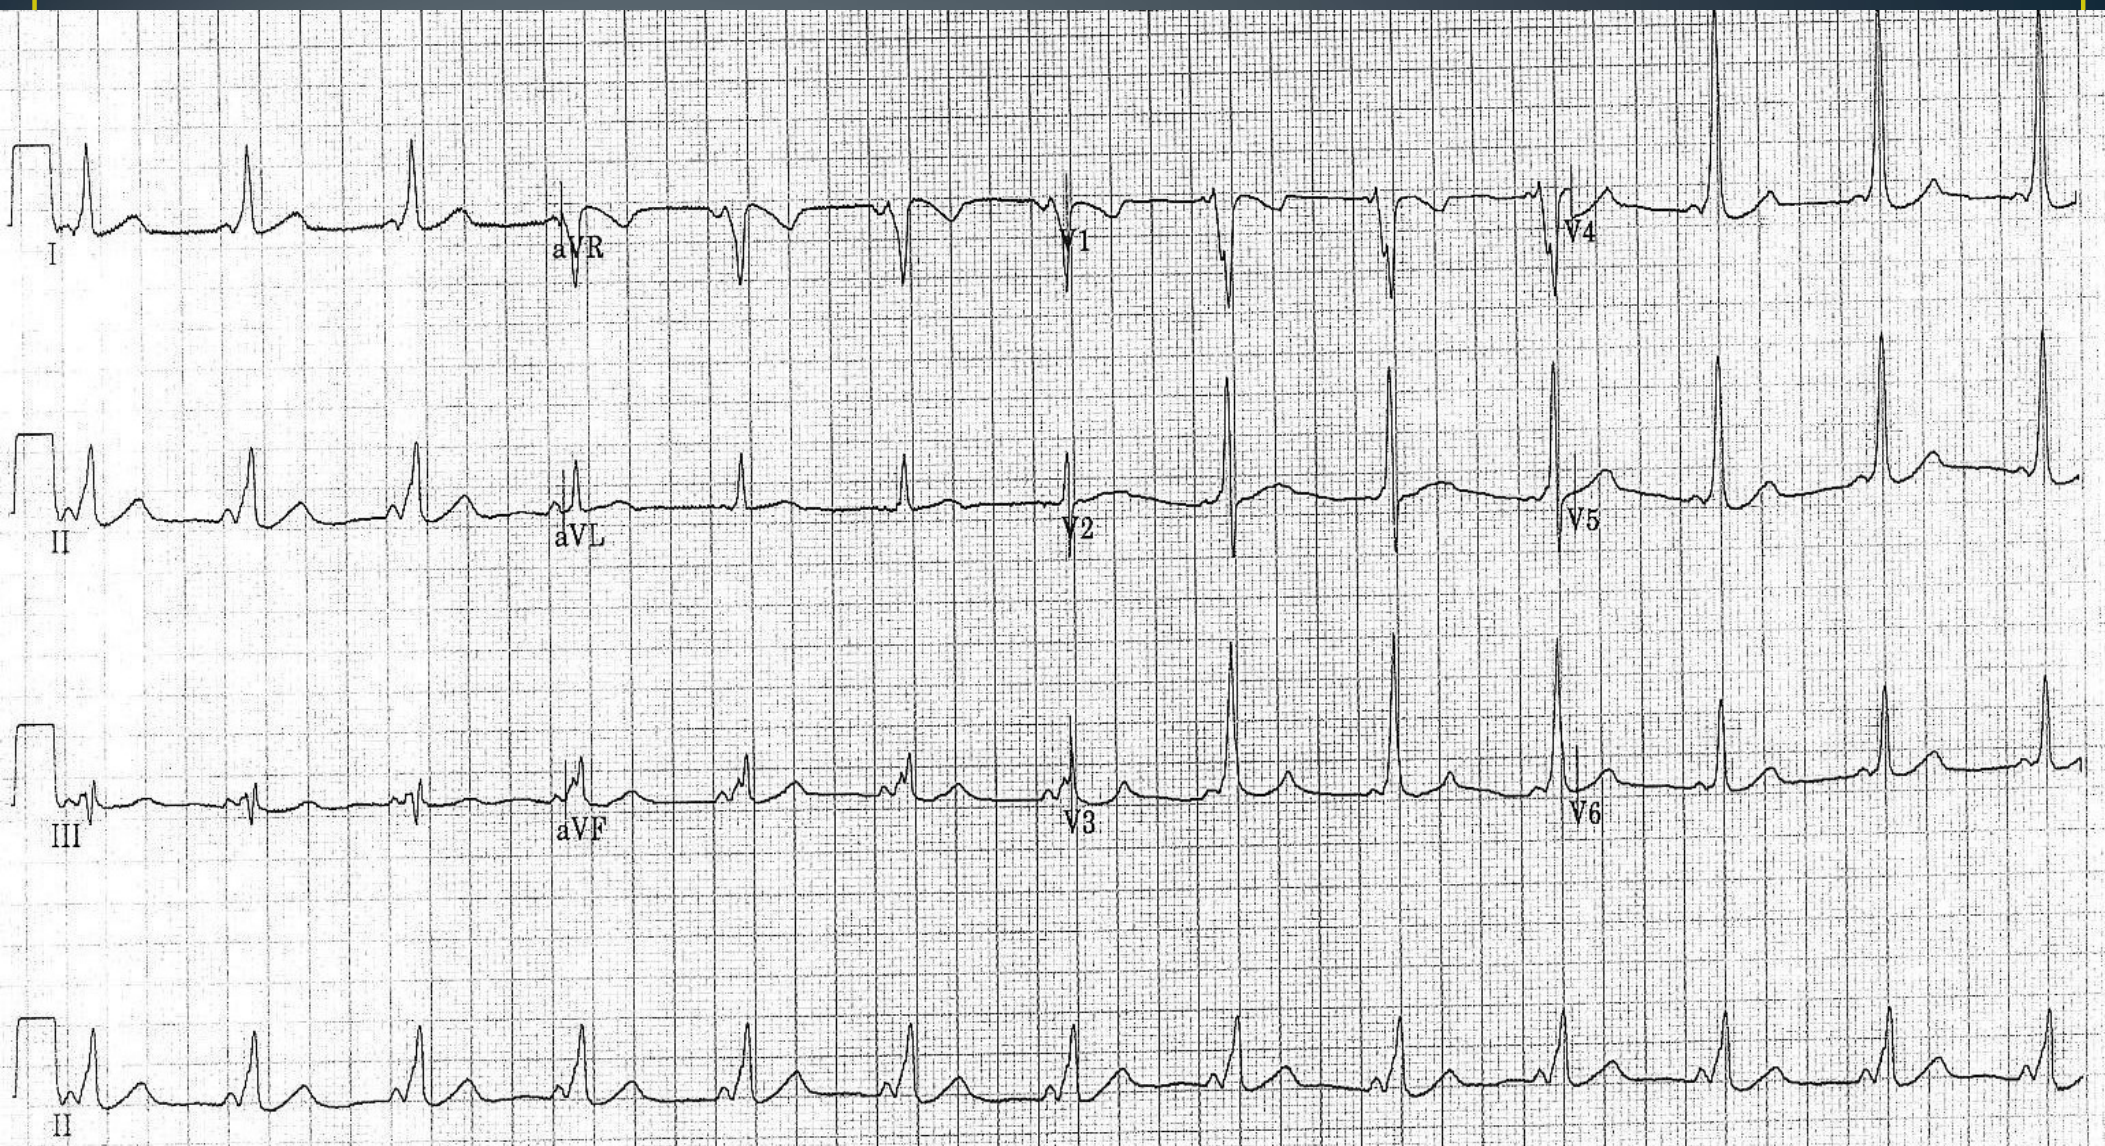

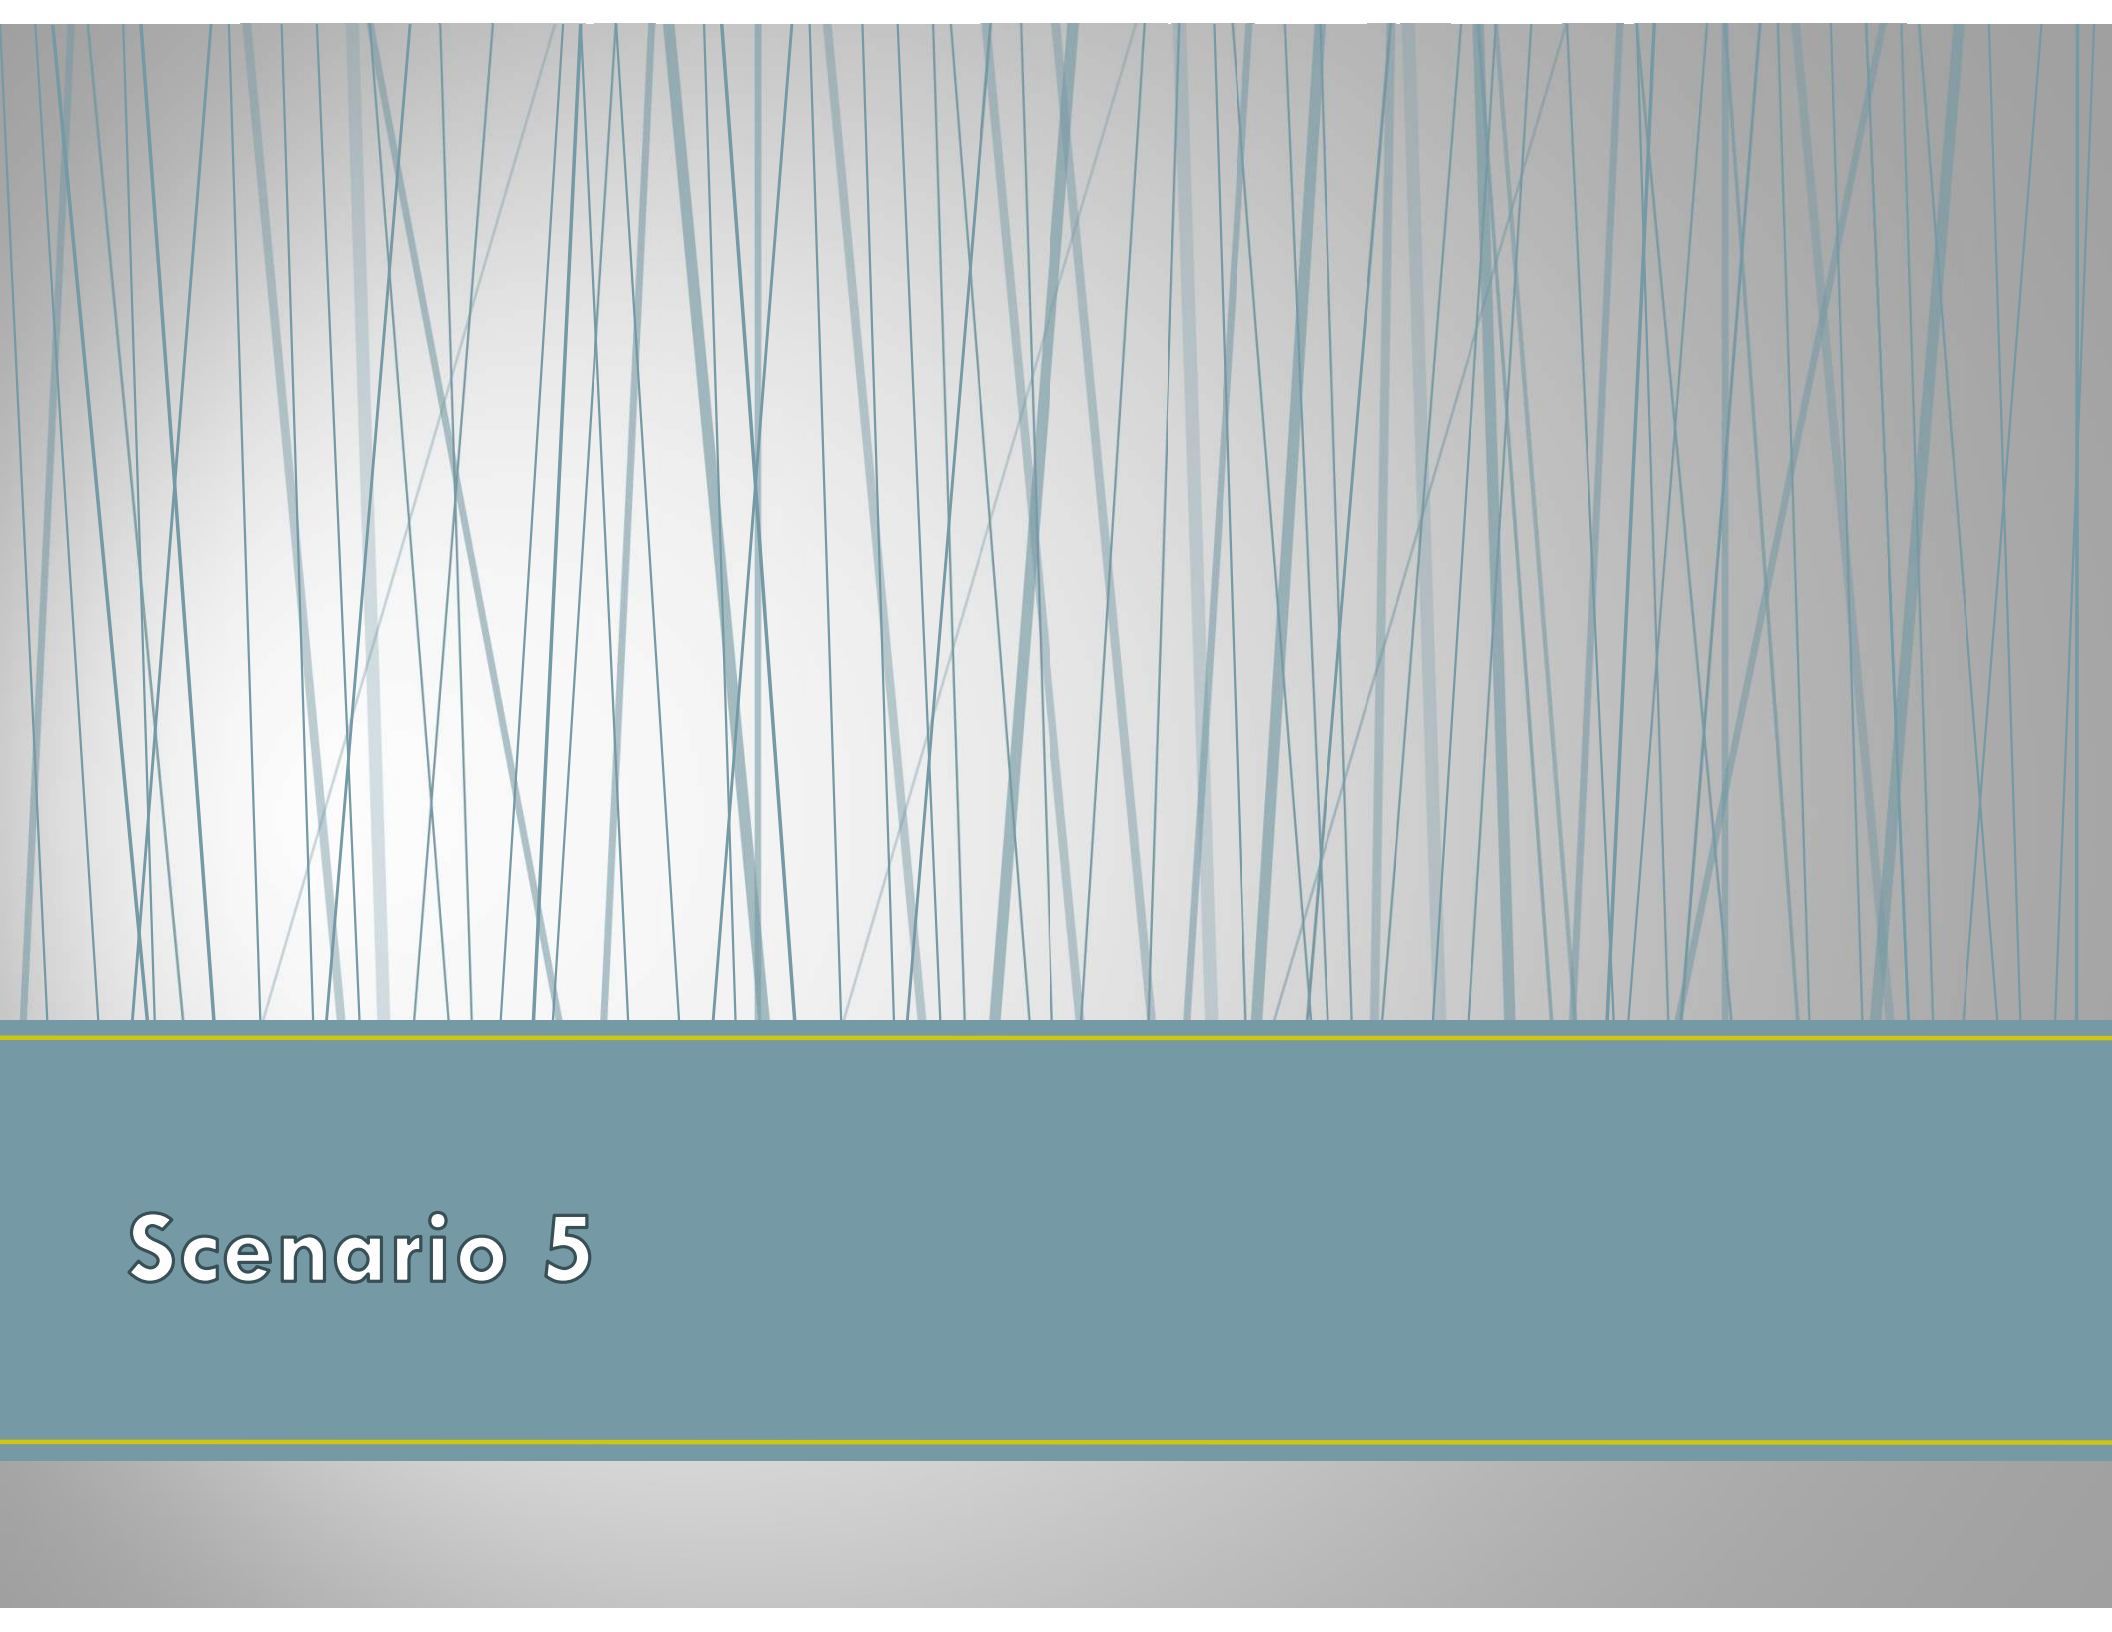

The background features a series of thin, vertical, light blue lines of varying heights and positions, creating a textured, rain-like effect. These lines are set against a light gray background. A solid, medium-blue horizontal band spans the width of the image, positioned below the vertical lines. At the bottom, there is a thin, solid gray horizontal band.

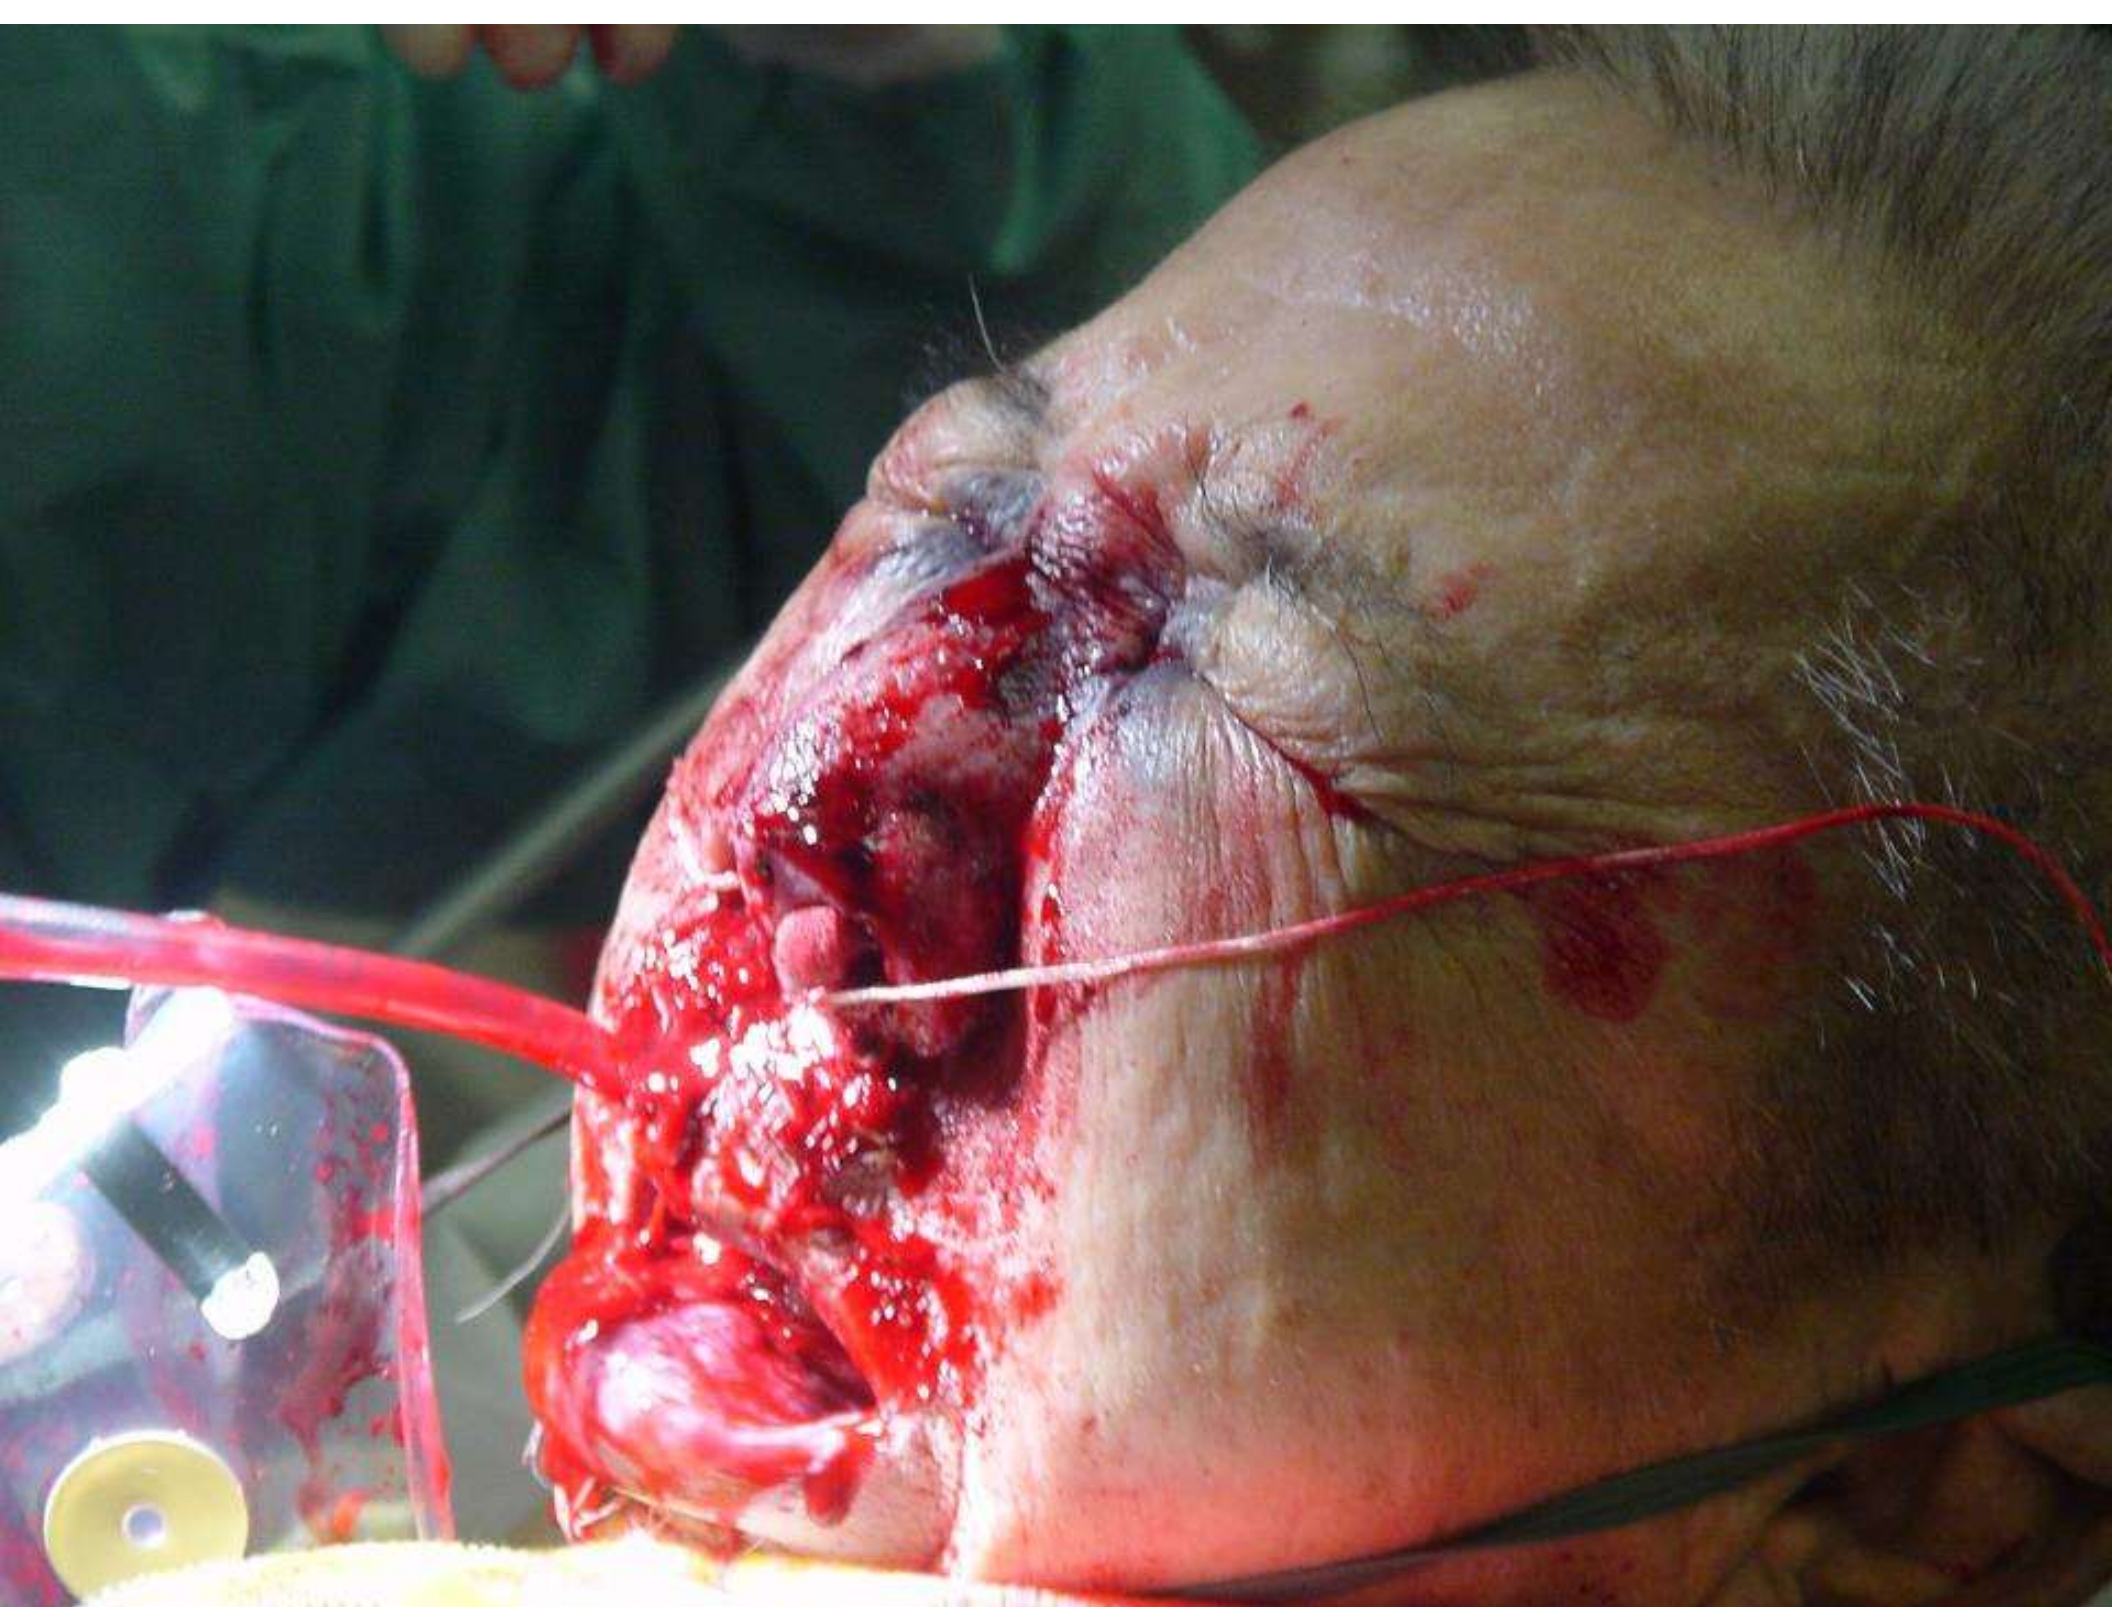

Scenario 4

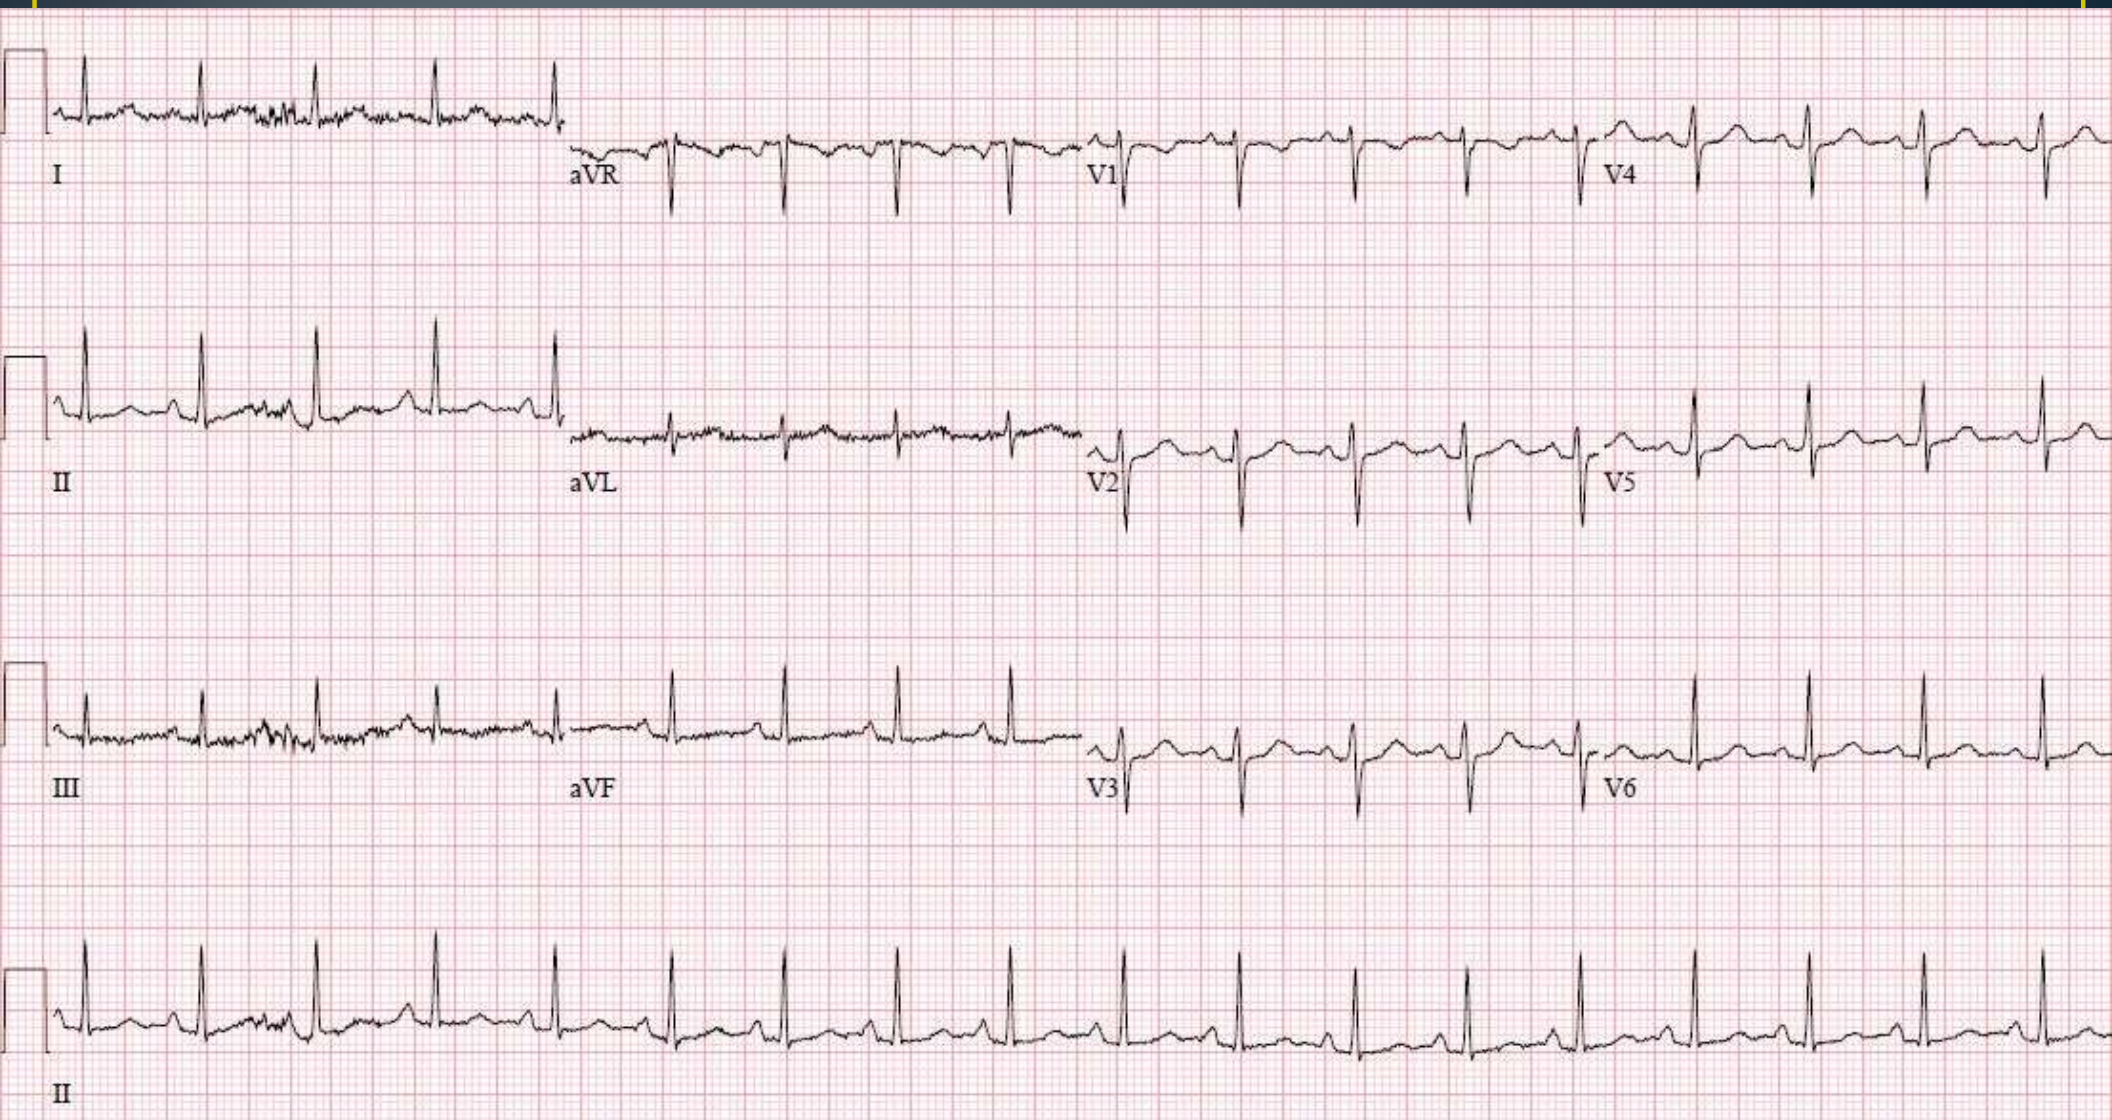

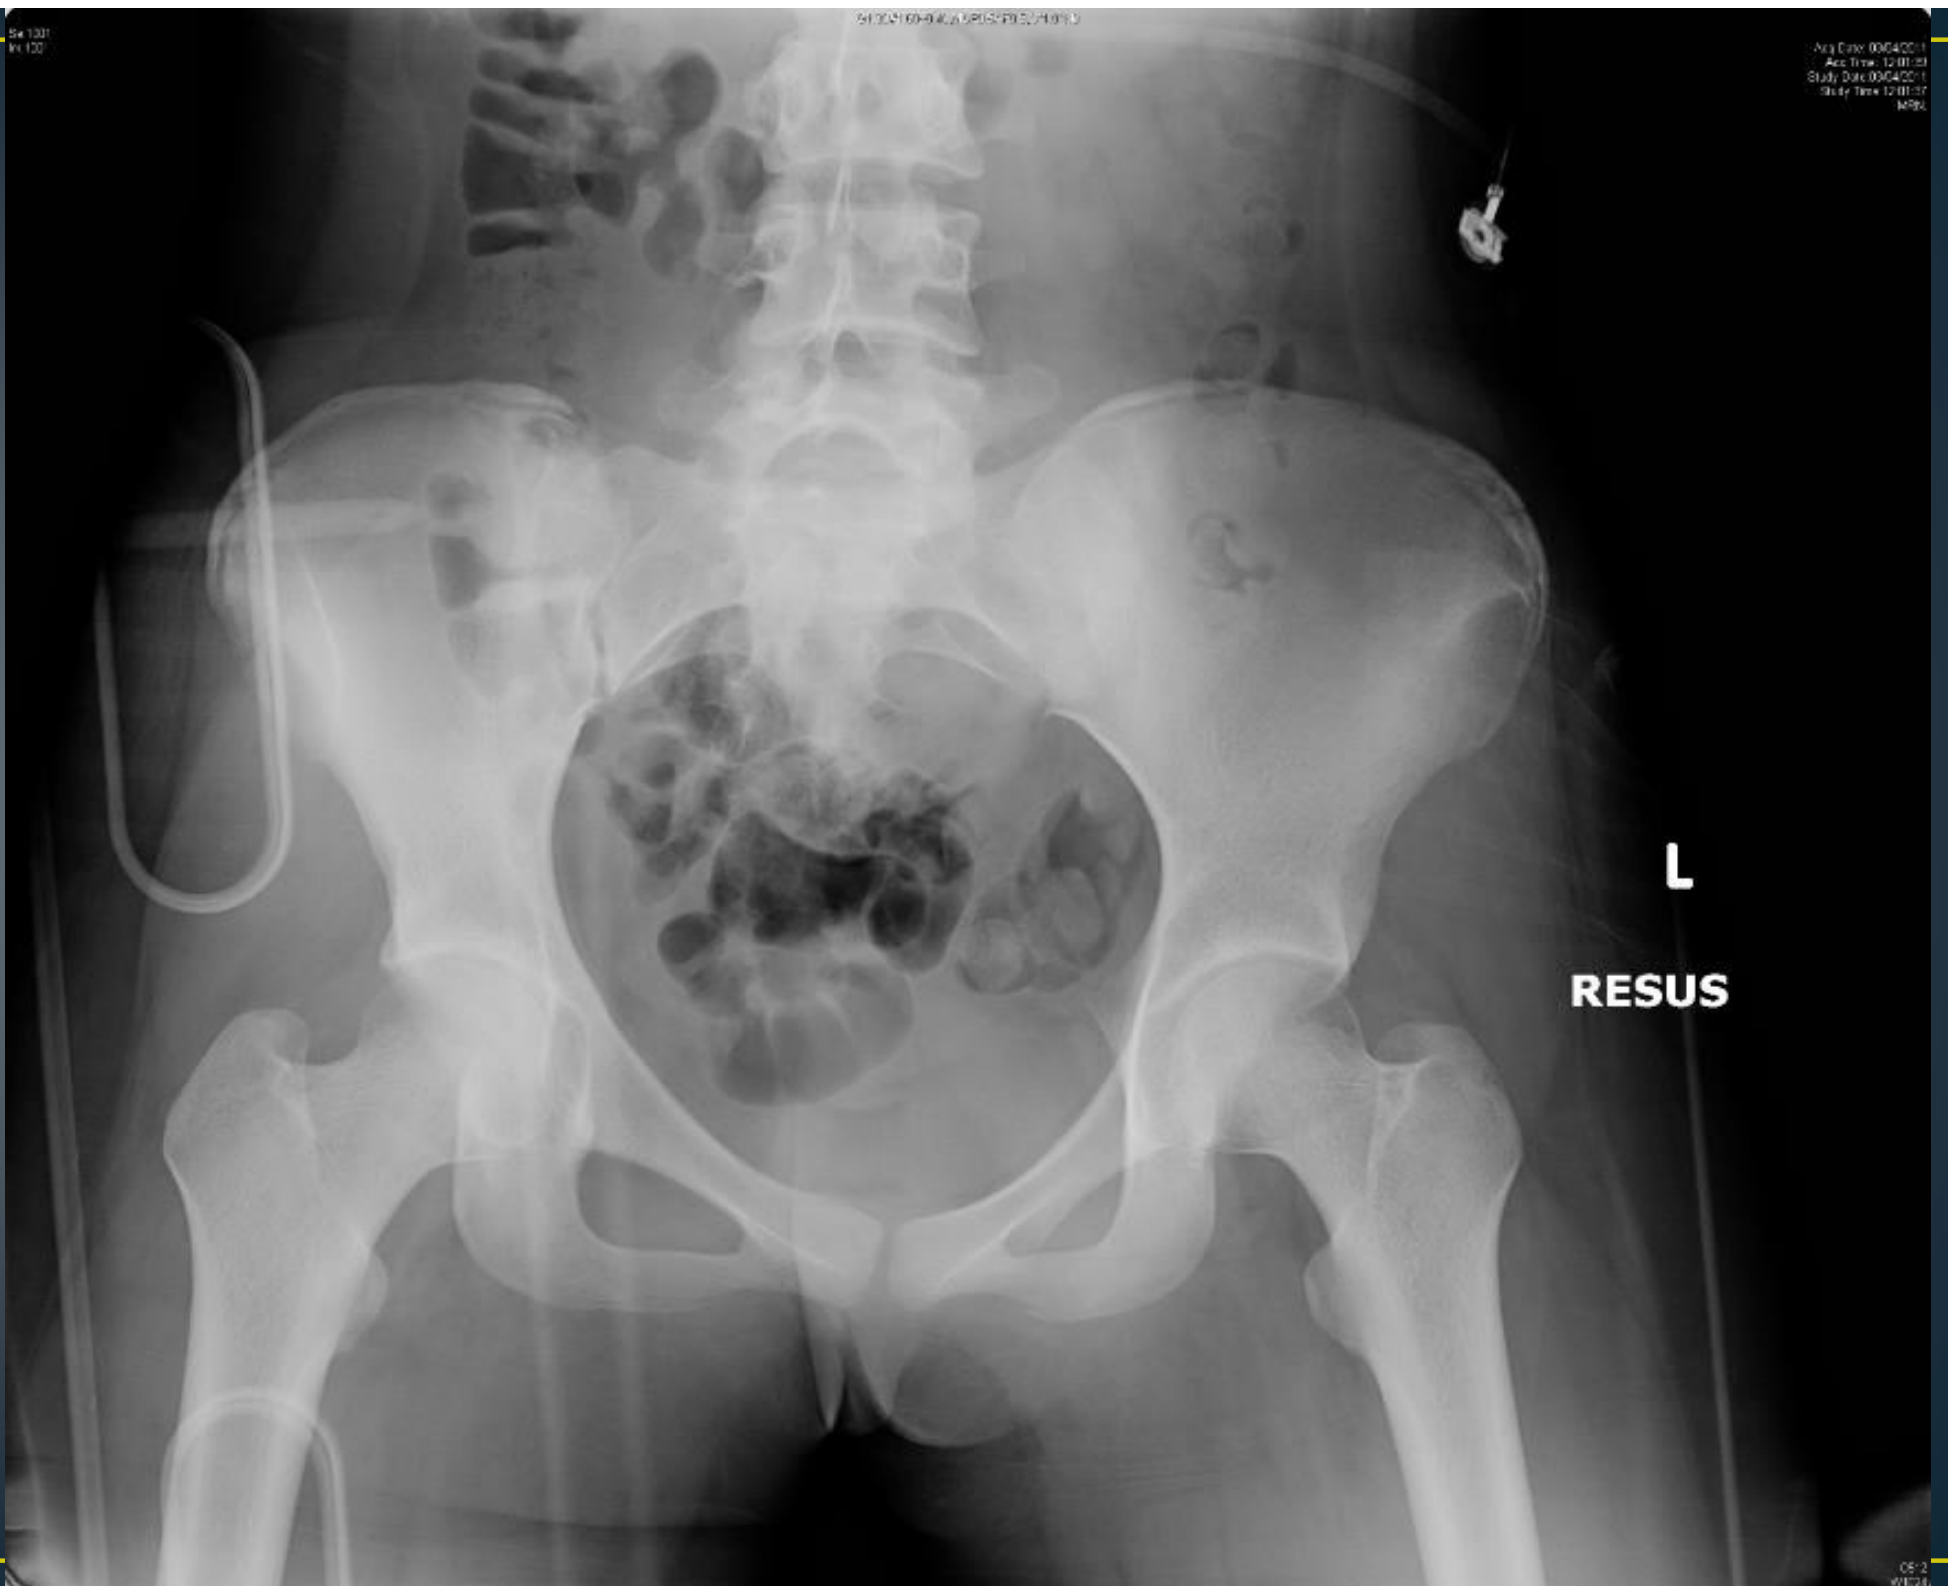

The background features a series of thin, vertical, light blue lines of varying heights and positions, creating a textured, rain-like effect. These lines are set against a light gray background. A solid, medium-blue horizontal band spans the width of the image, positioned below the line pattern. At the bottom, there is a thin, solid gray horizontal band.

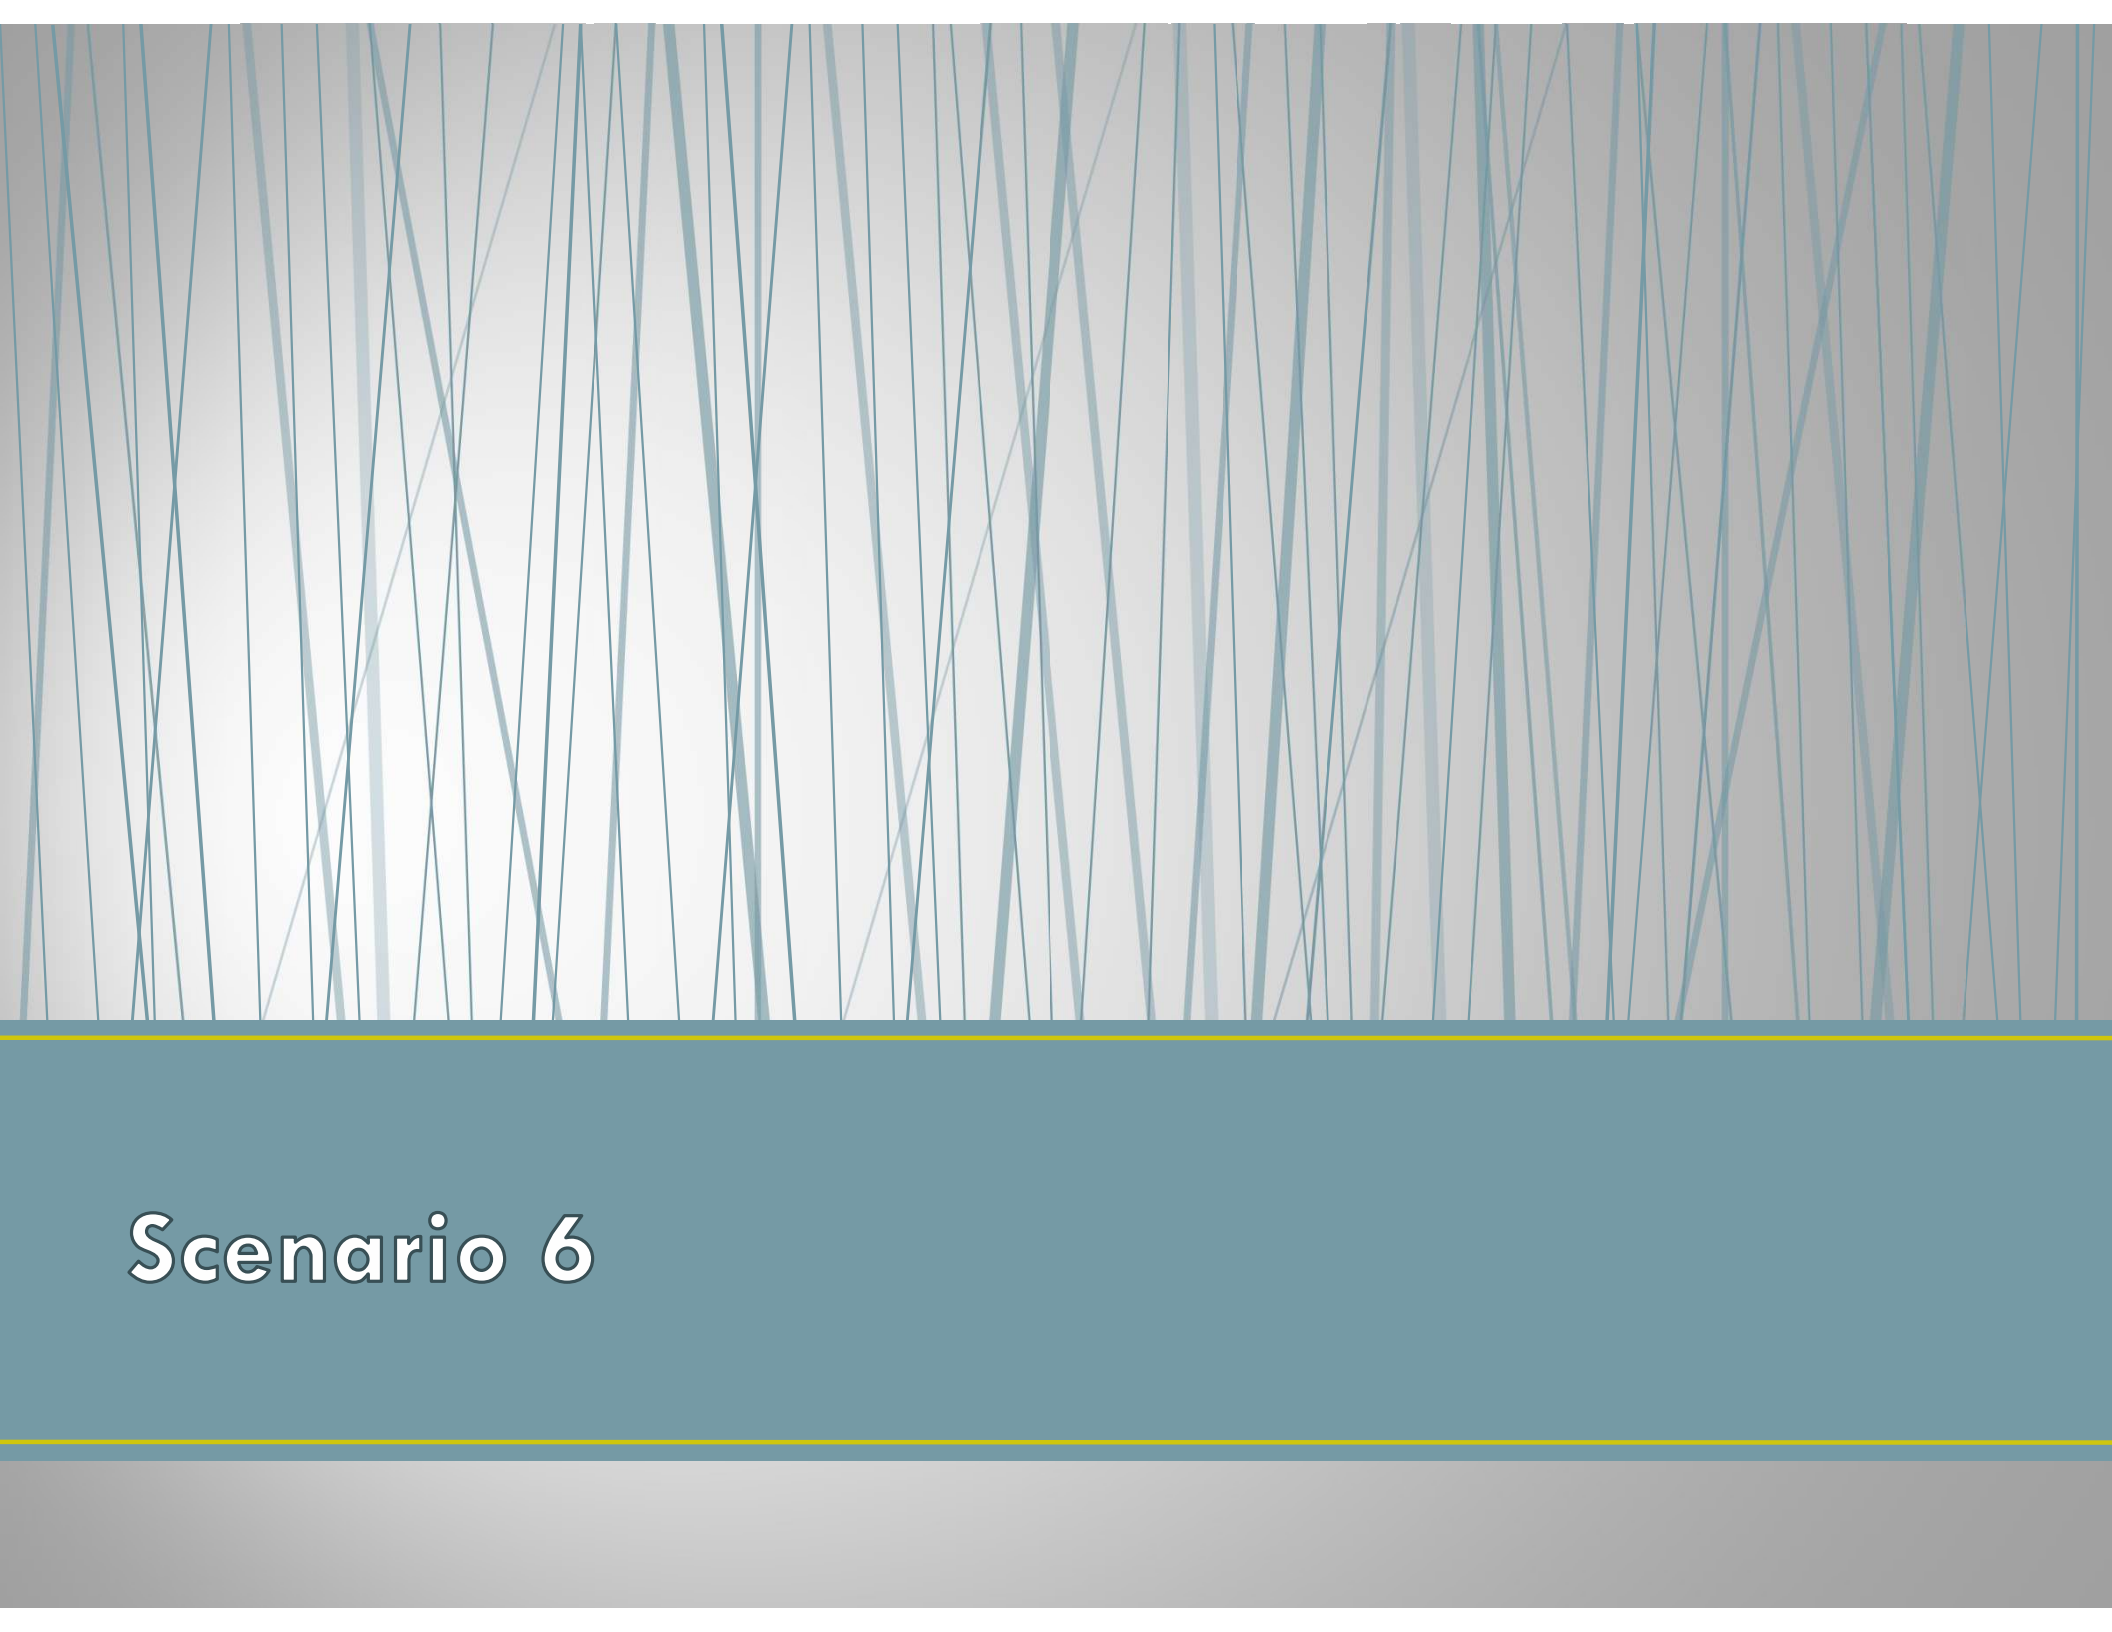

Scenario 5

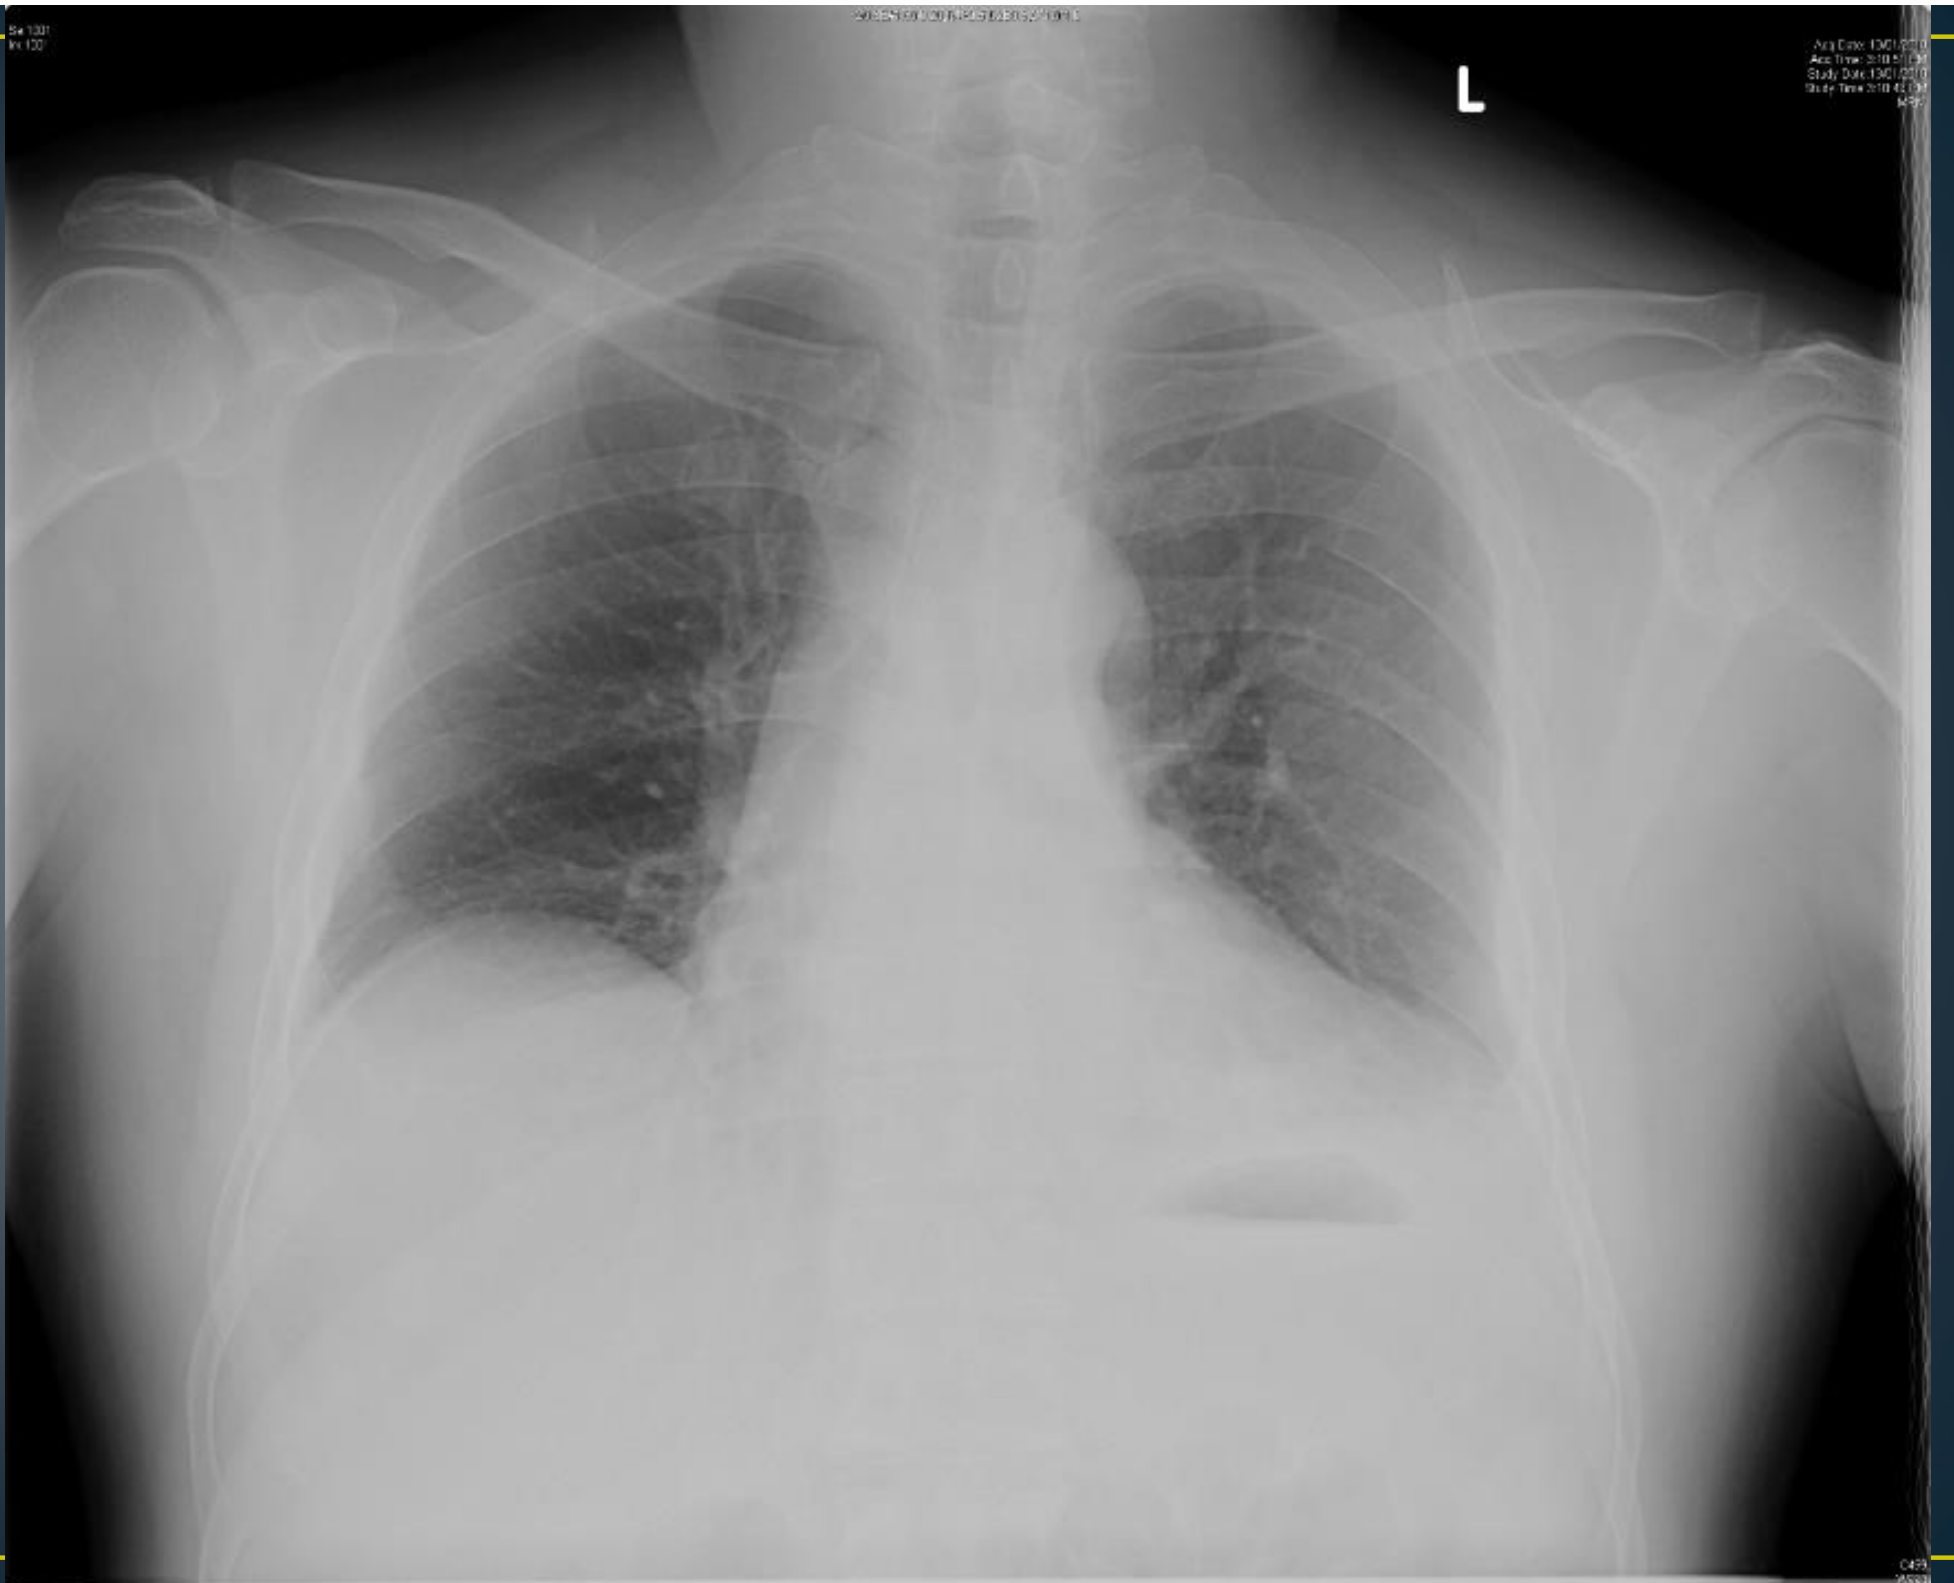

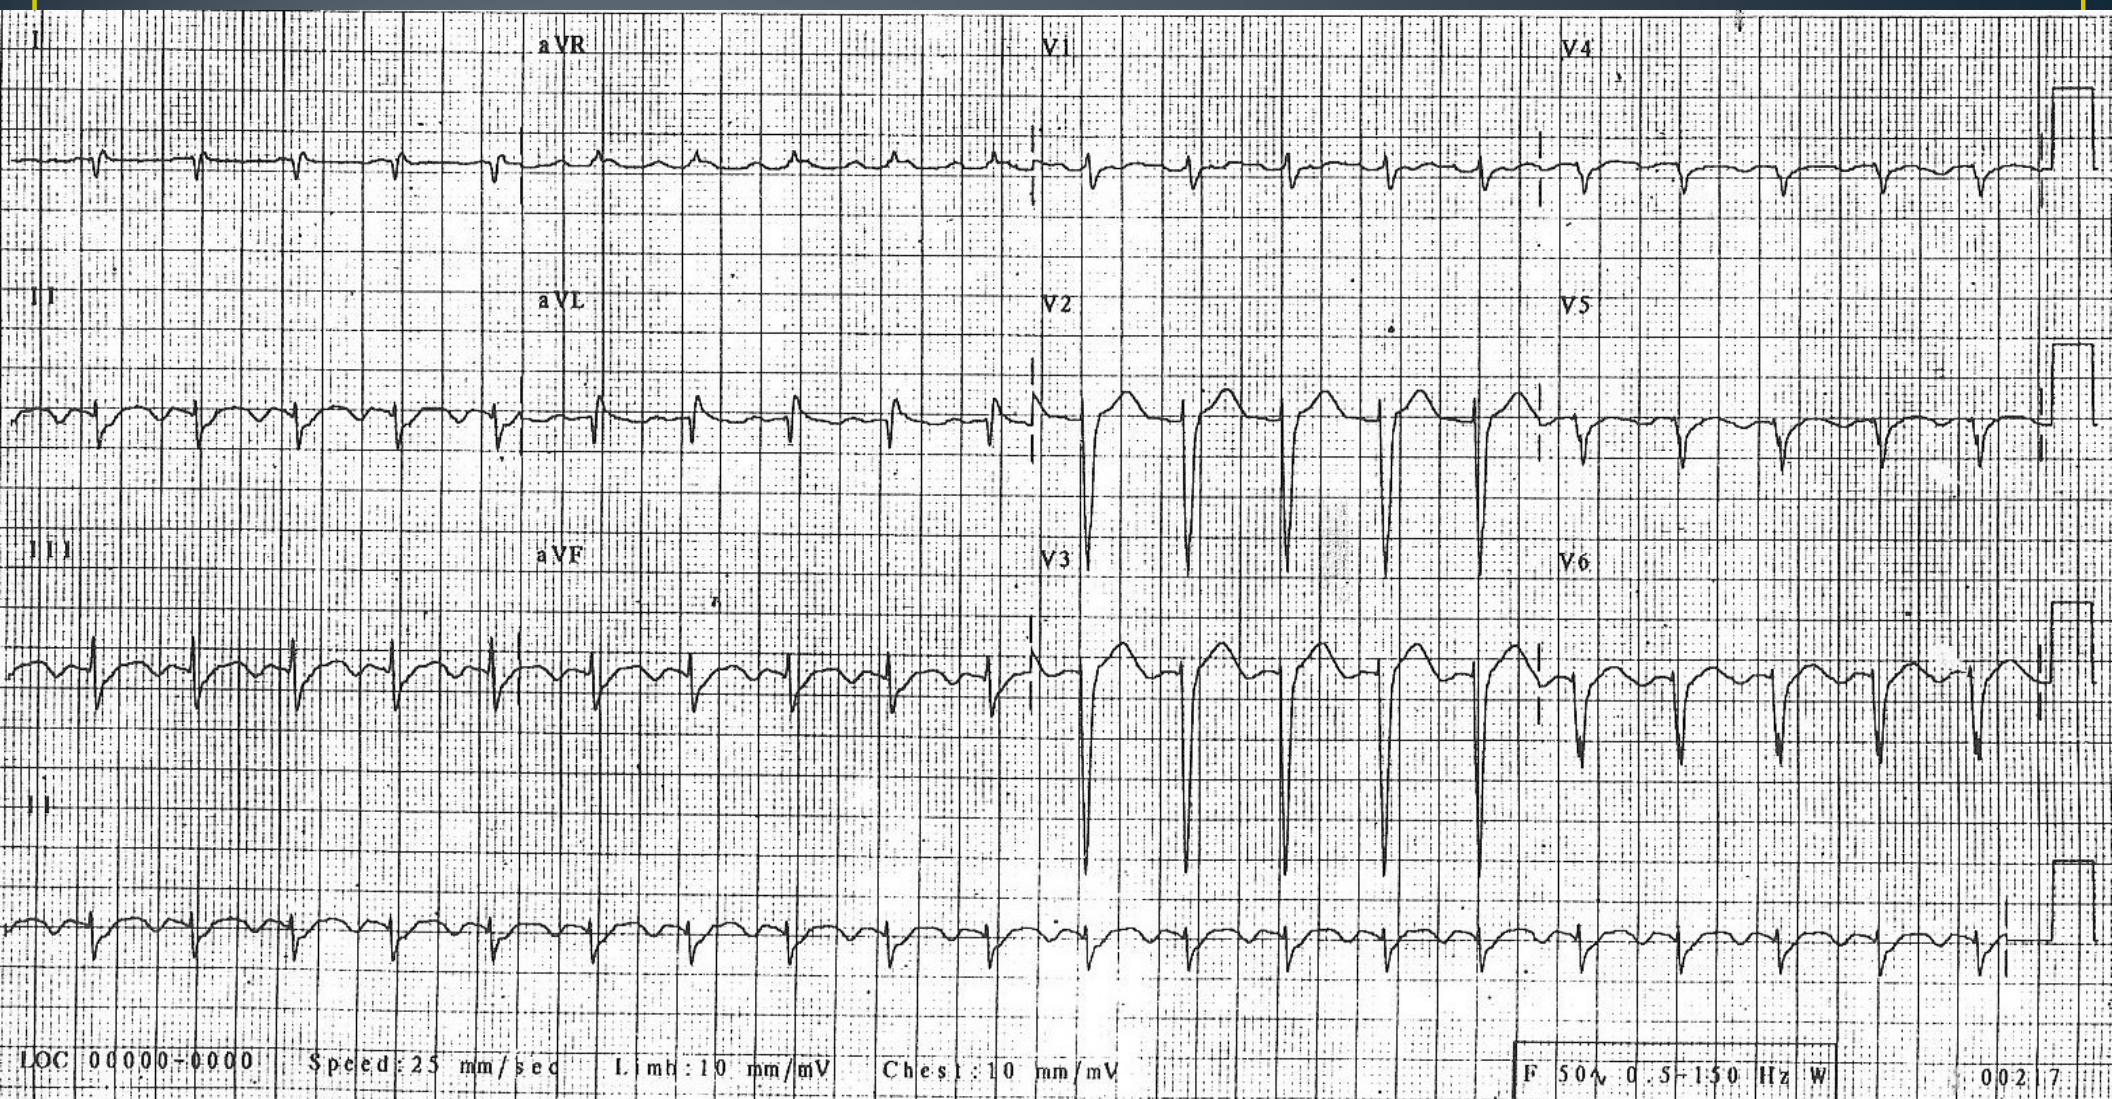

The background features a series of thin, vertical, light blue lines of varying heights and positions, creating a textured, rain-like effect. These lines are set against a light gray gradient background. A solid, medium-blue horizontal band spans the width of the image, positioned below the line pattern. At the bottom, there is a thin, solid gray horizontal band.

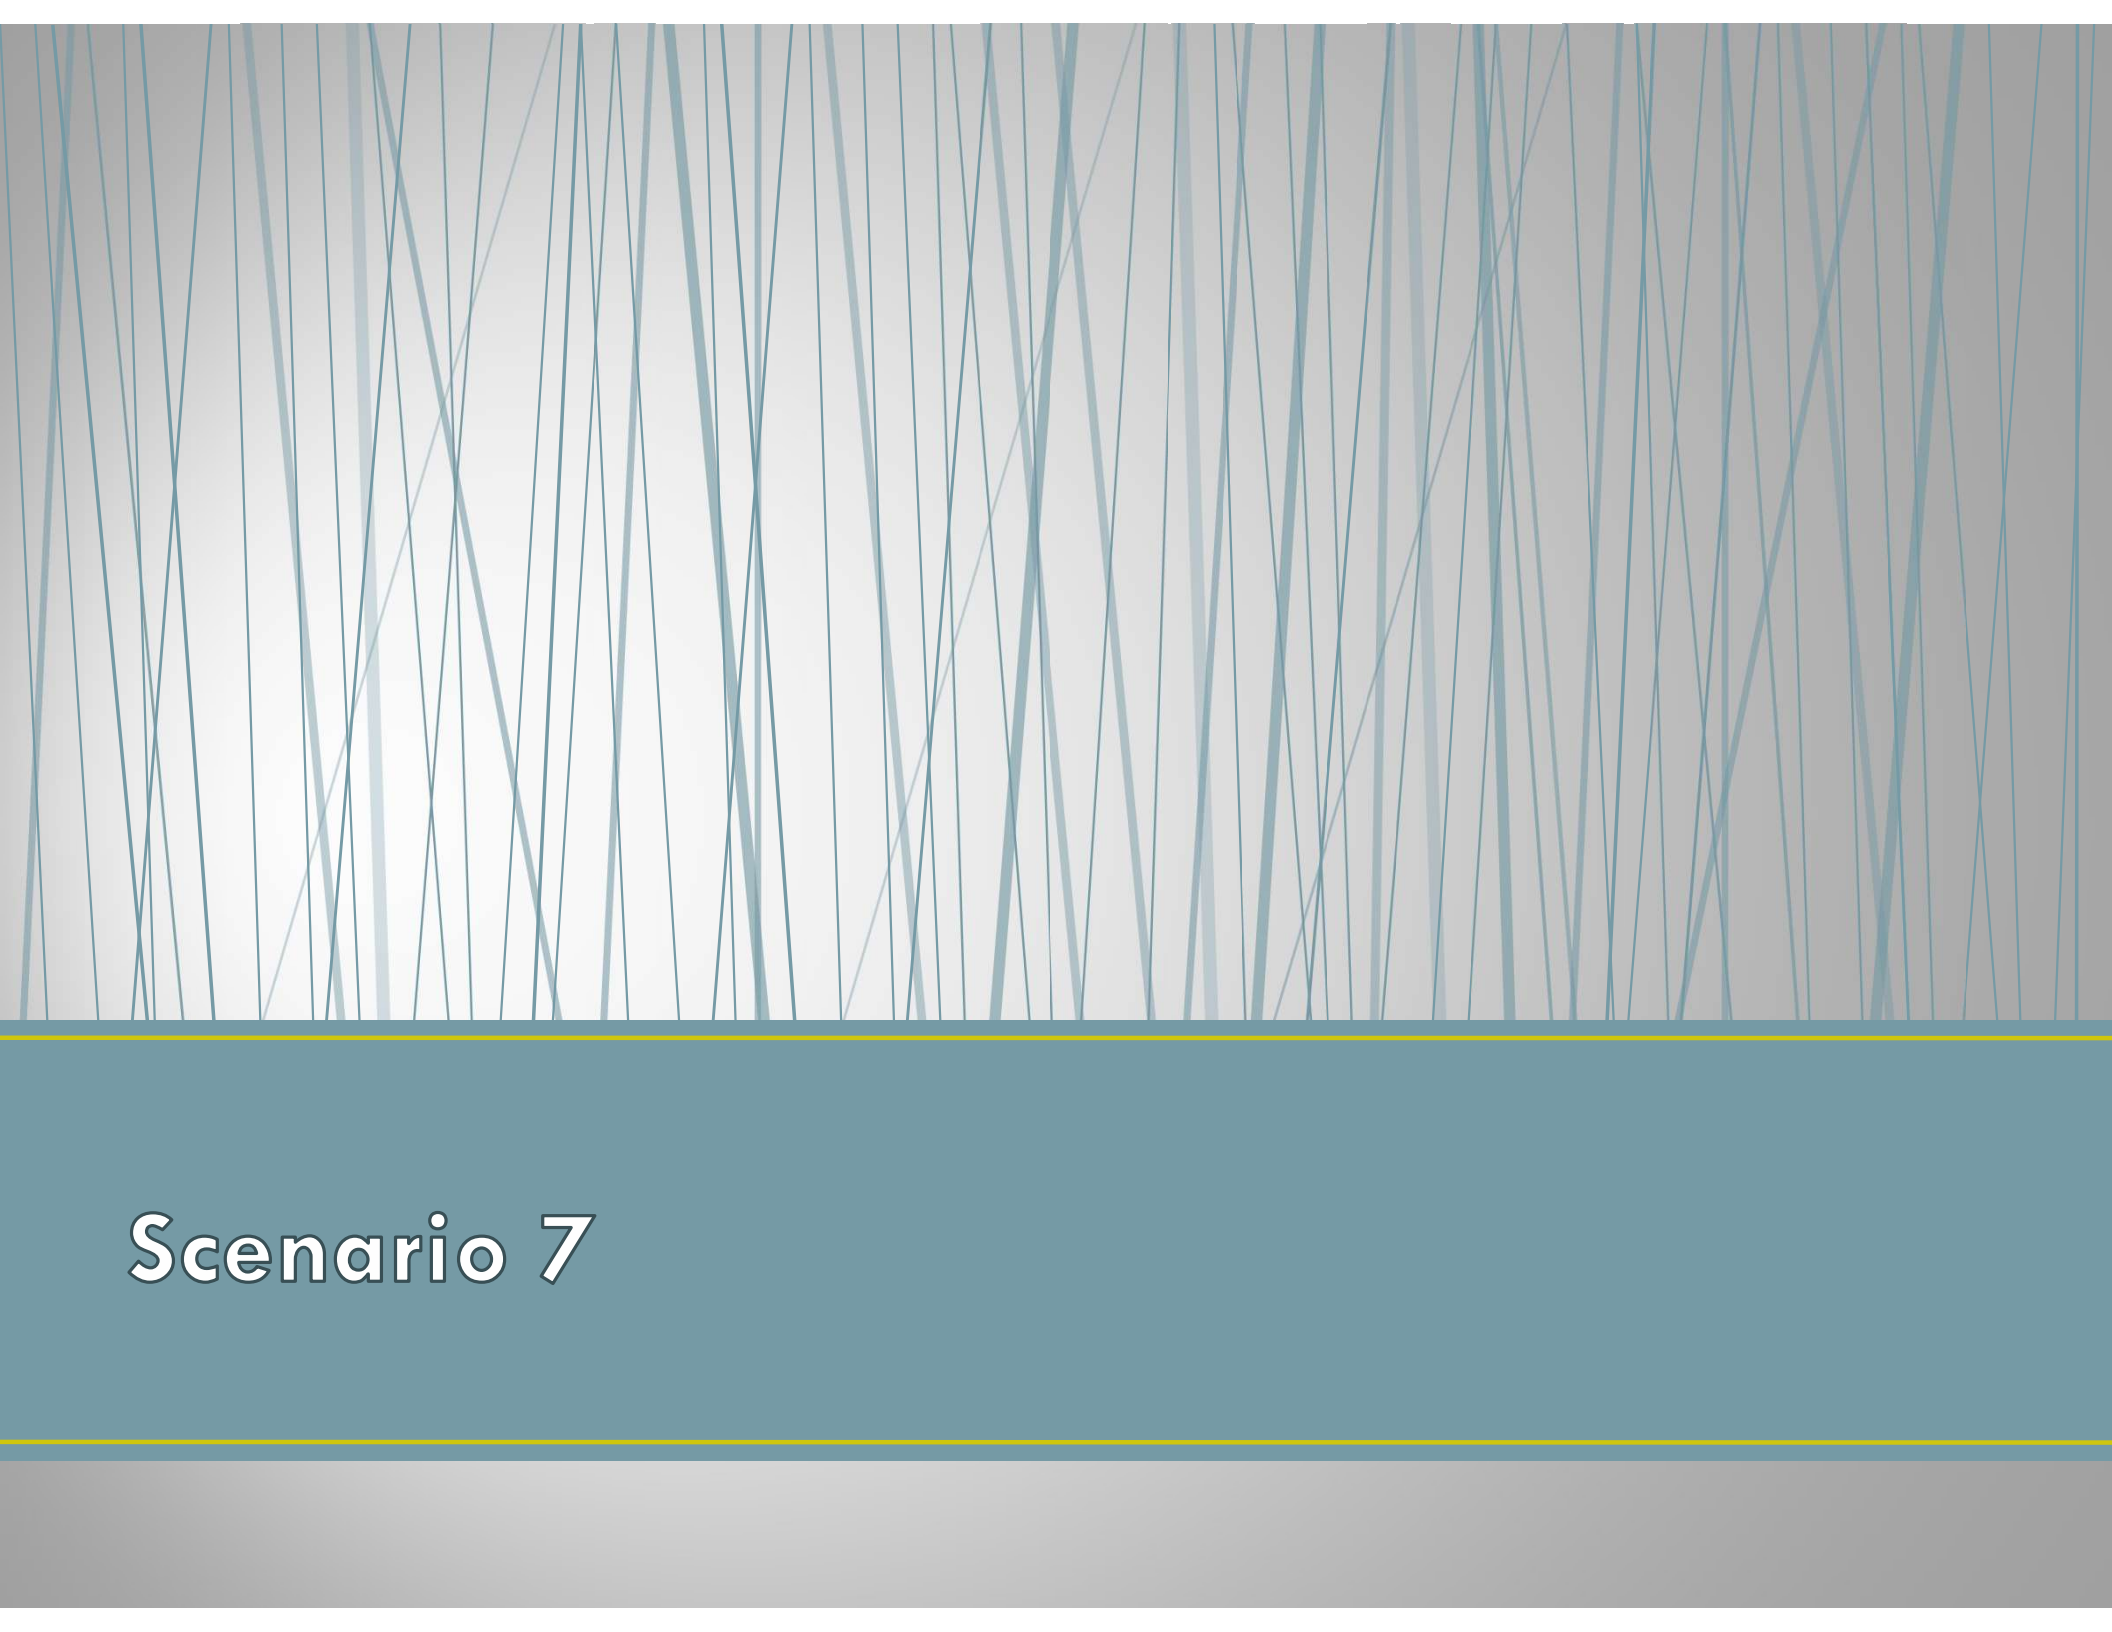

Scenario 6

L

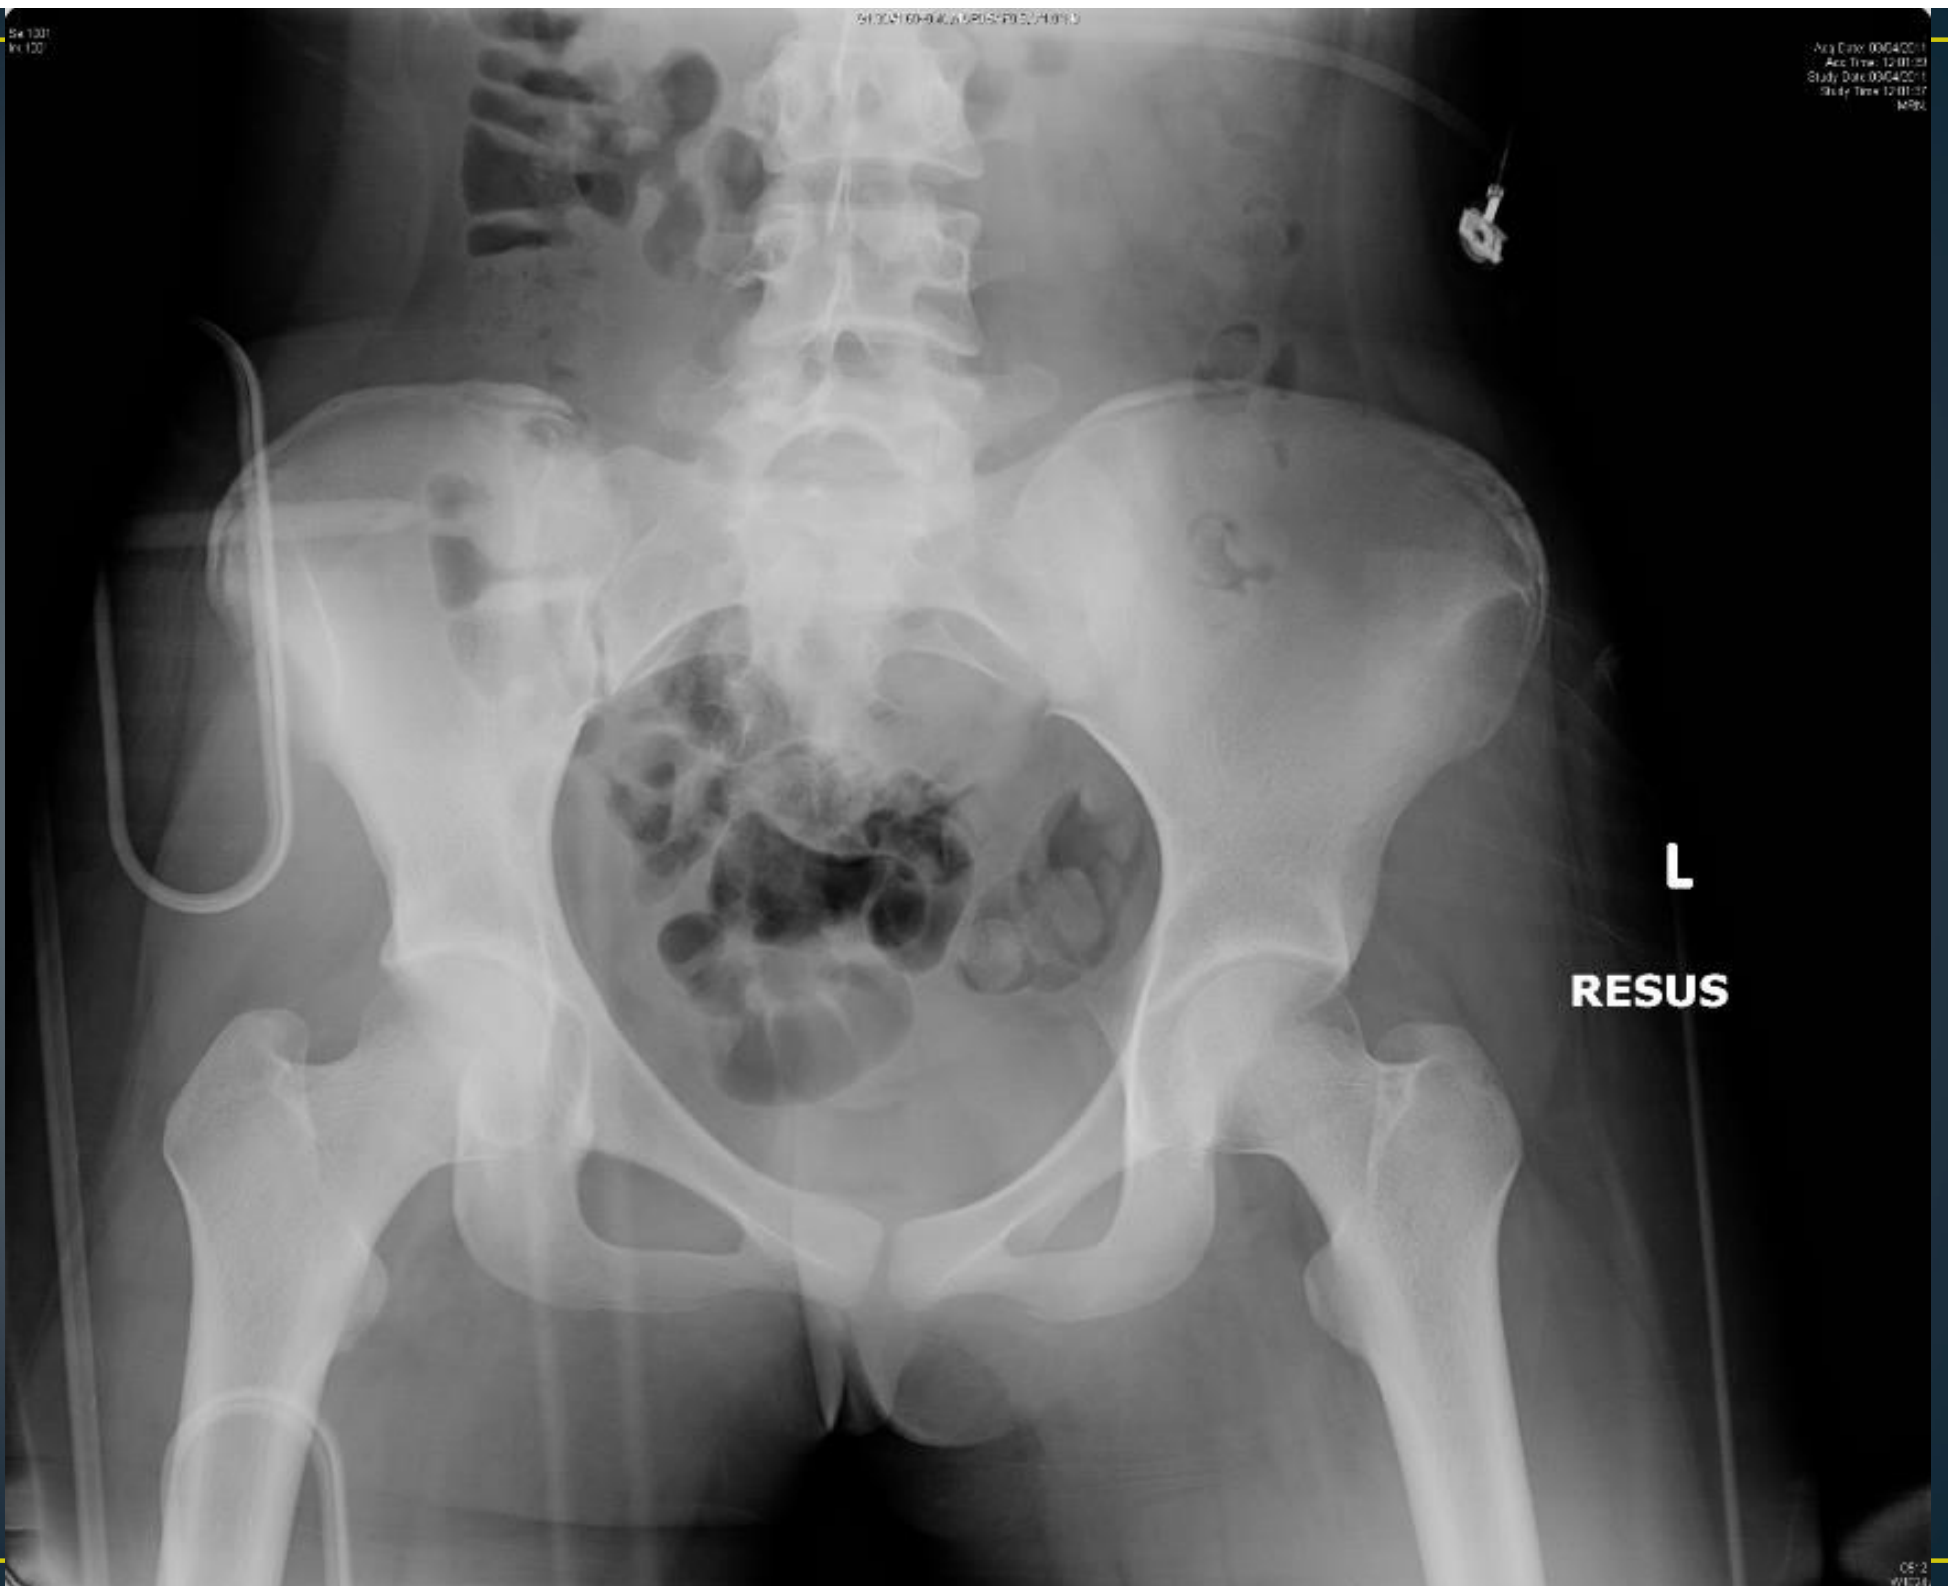

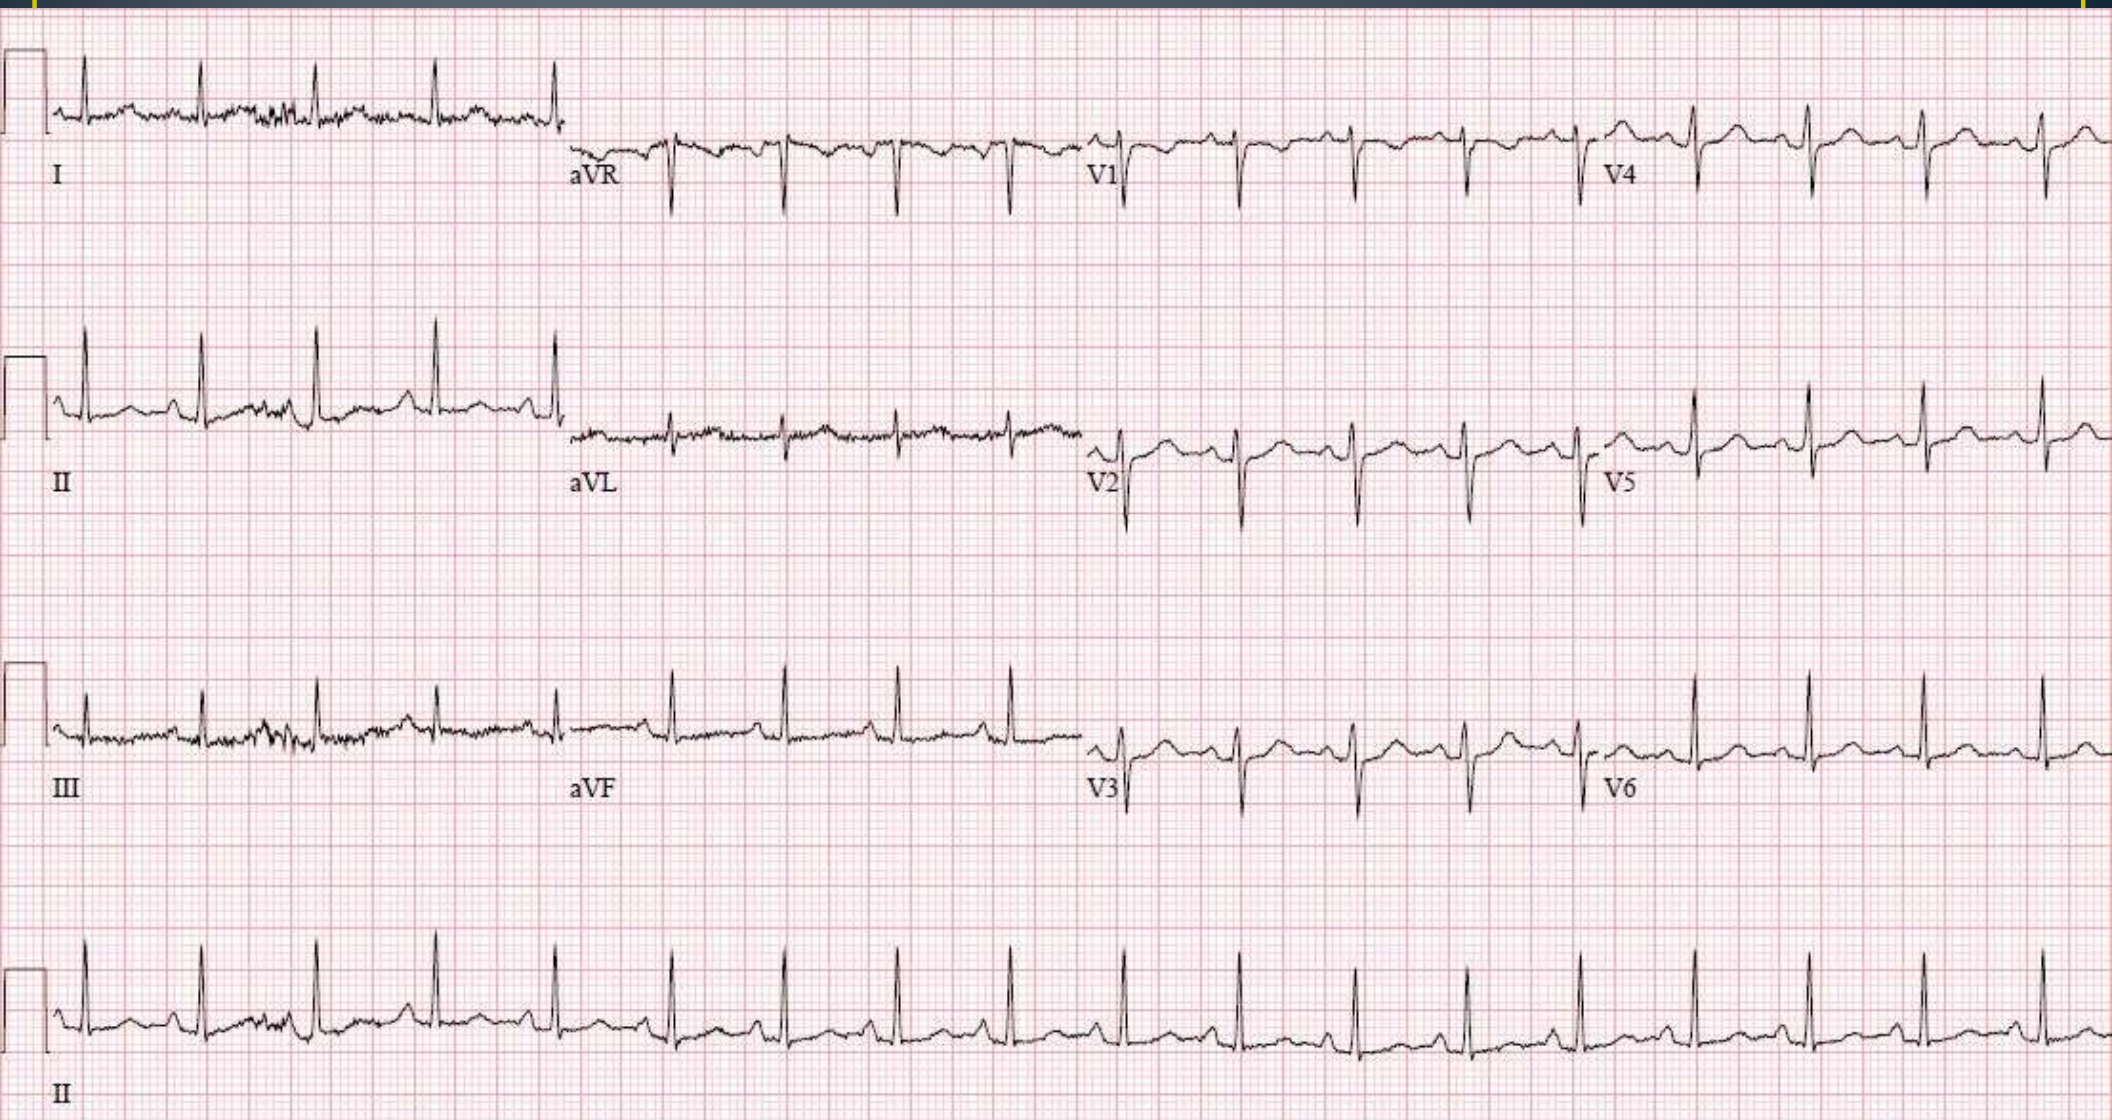

The background features a complex pattern of thin, vertical, slightly wavy lines in various shades of blue and grey, creating a textured, rain-like effect. This pattern is overlaid on a background that transitions from a light grey at the top to a darker grey at the bottom. A solid, medium-blue horizontal band spans the width of the image, positioned below the patterned area. The text 'Scenario 7' is written in a white, sans-serif font within this blue band.

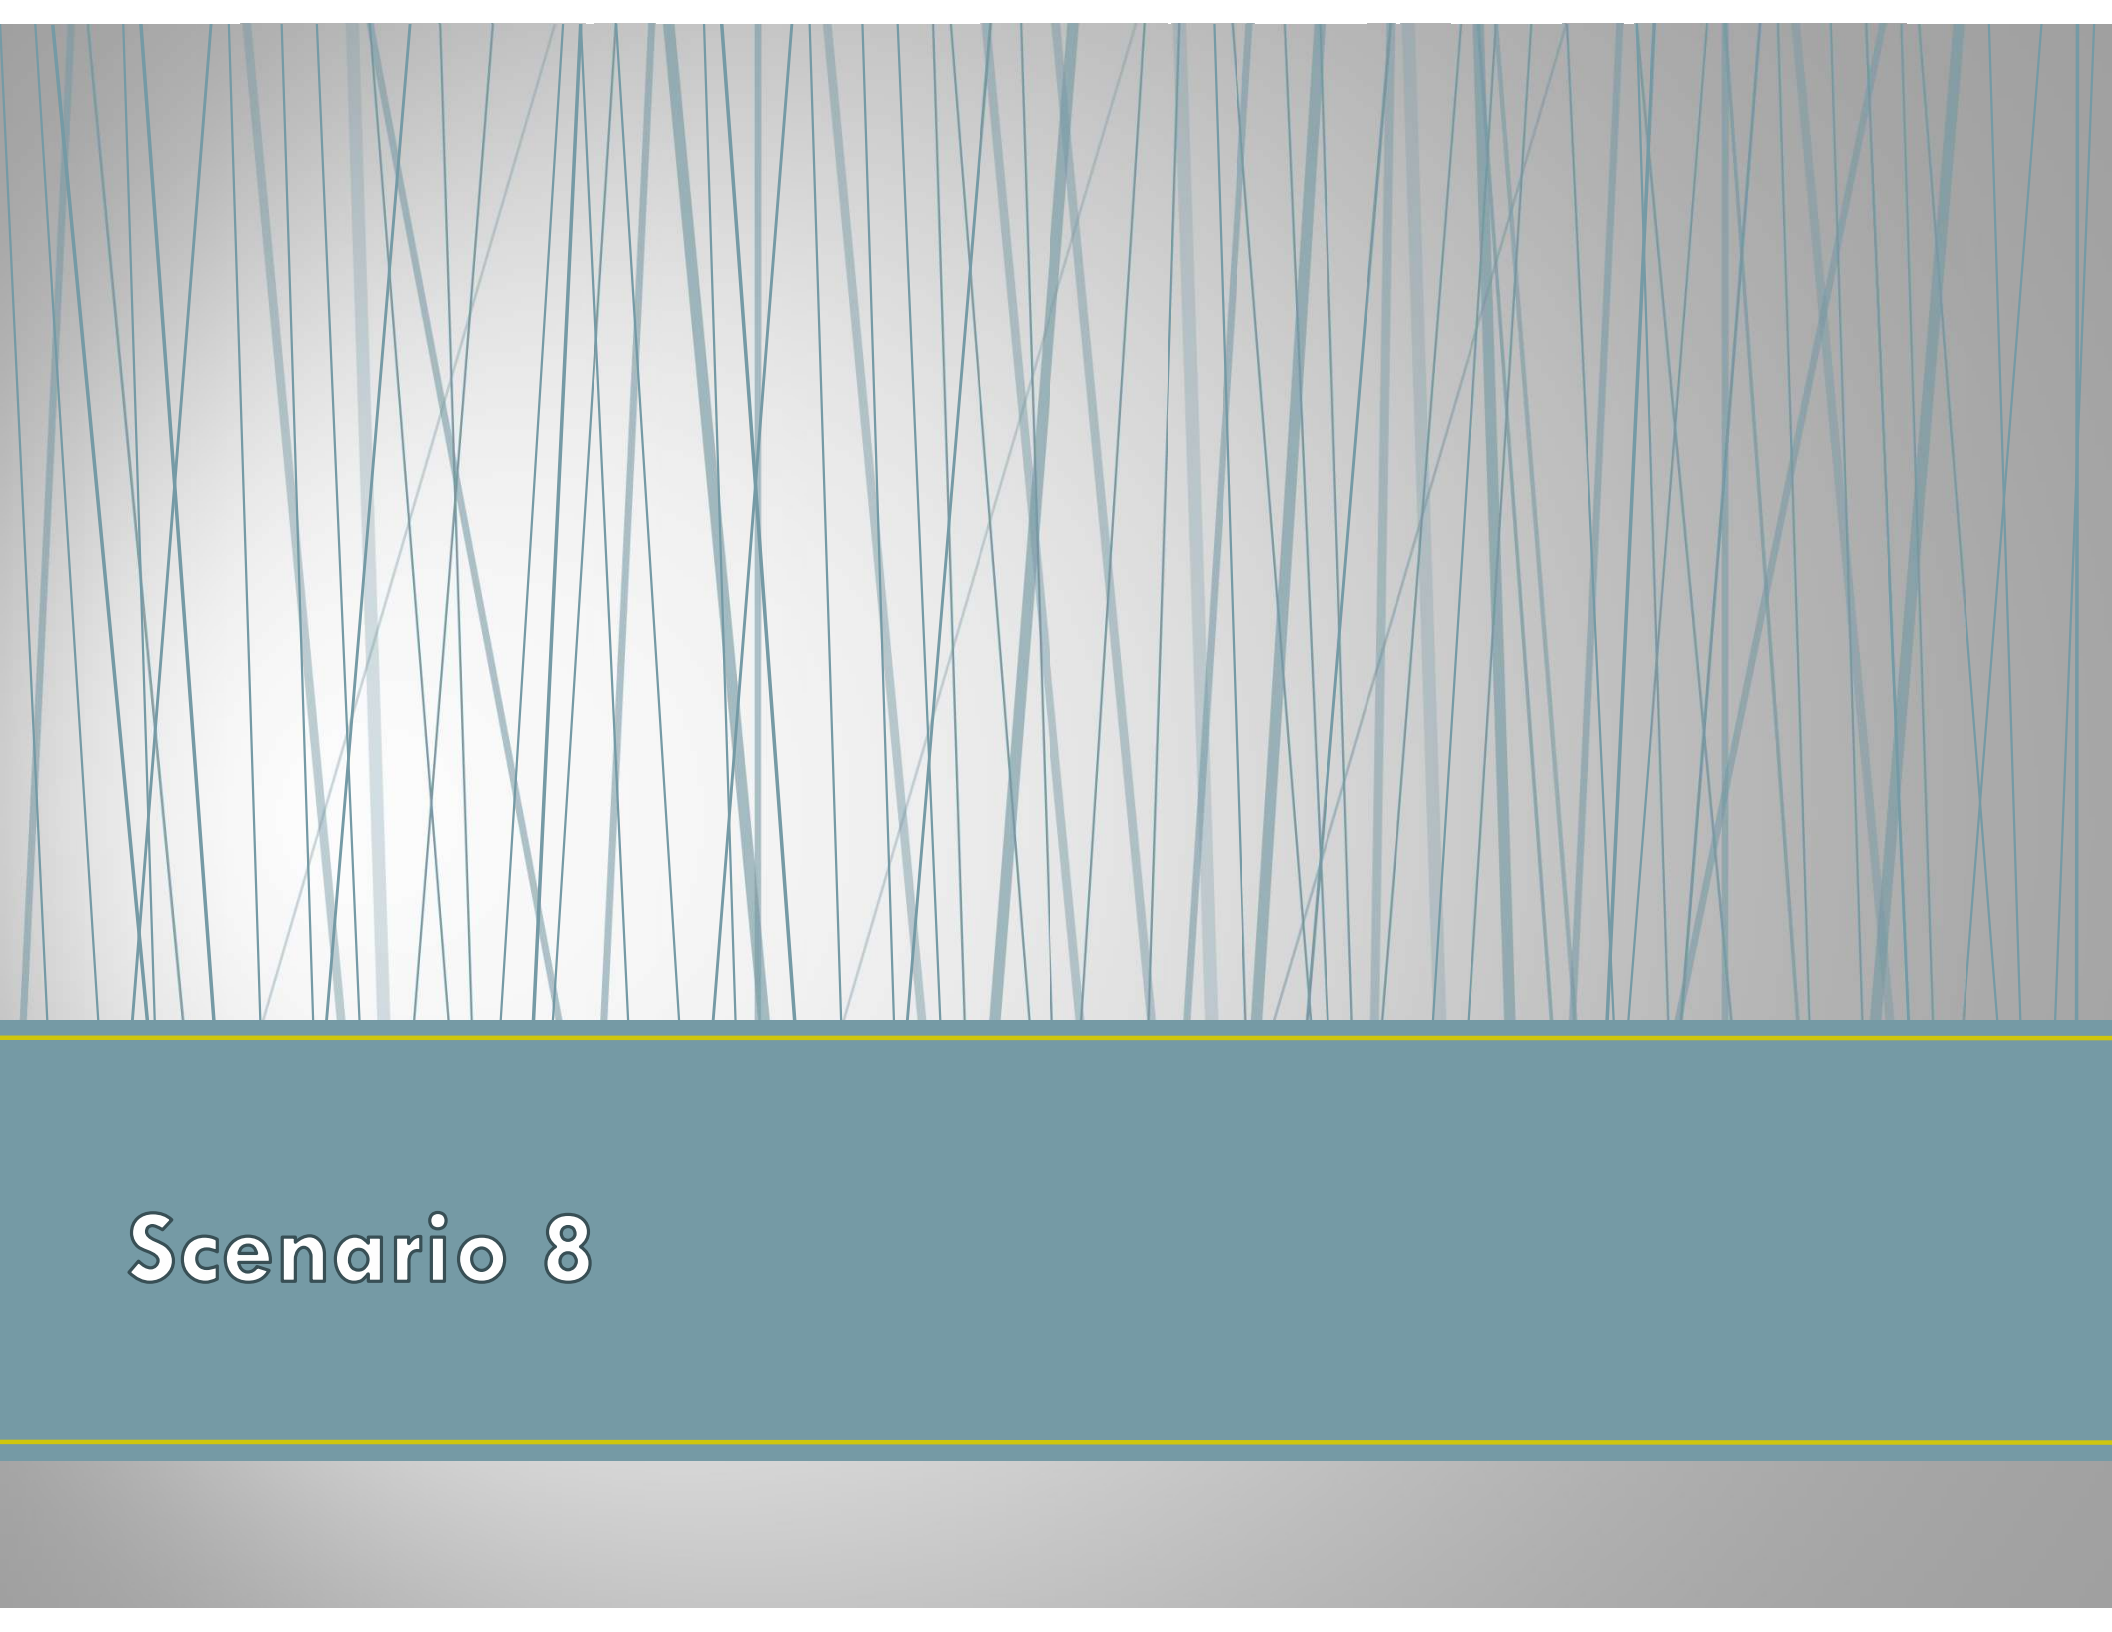

Scenario 7

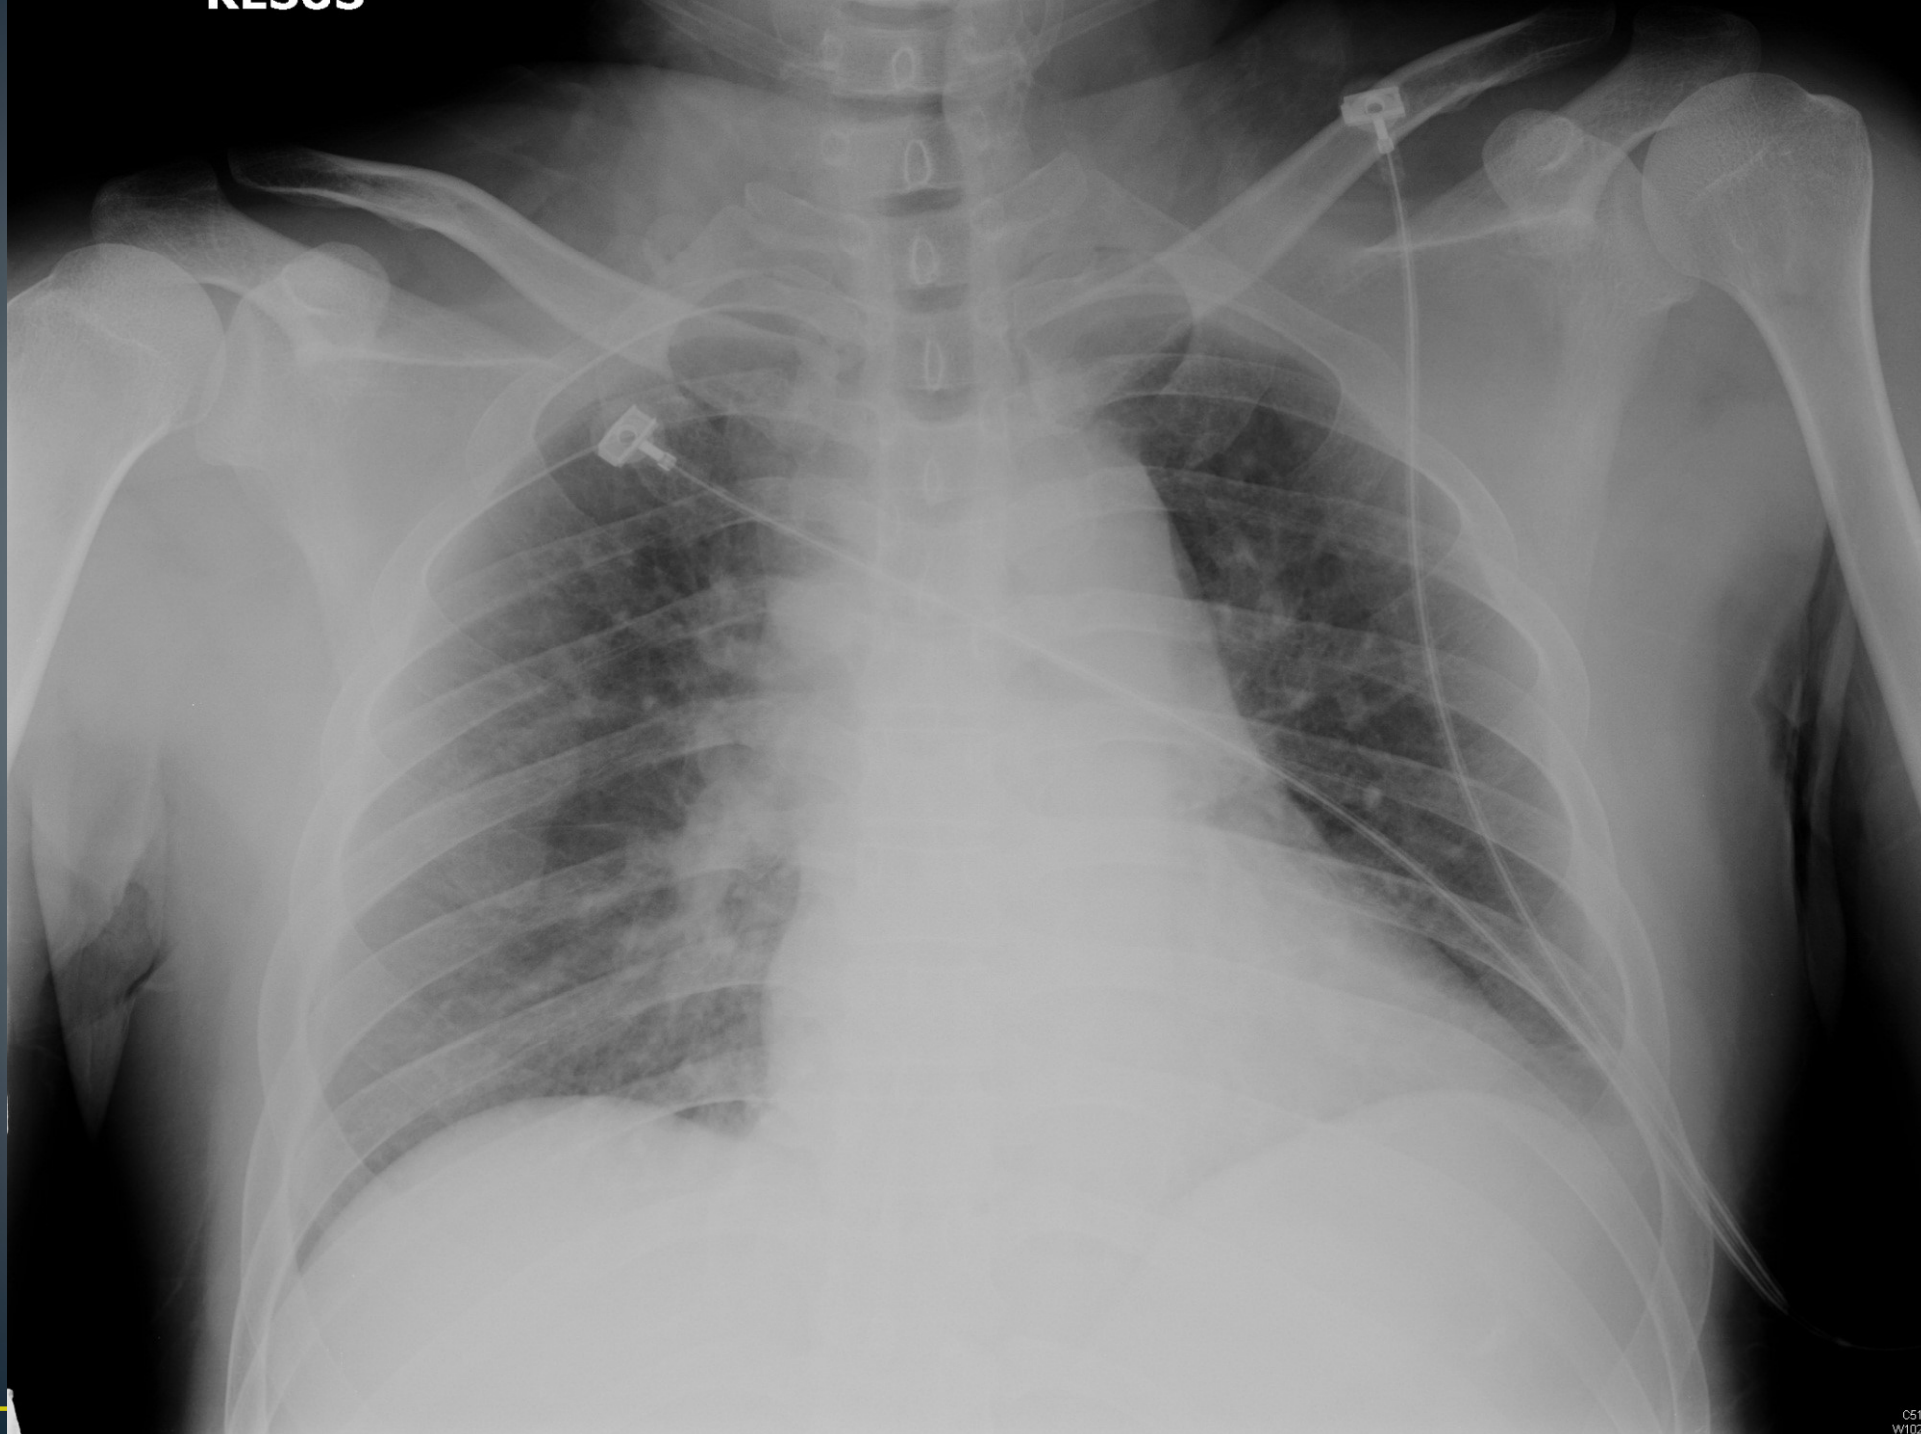

The background features a complex pattern of thin, vertical, slightly wavy lines in shades of blue and grey. These lines are set against a light grey gradient. A solid, medium-blue horizontal band spans the width of the image, positioned below the line pattern. At the very bottom, there is a thin, solid grey horizontal band.

The background of the slide is dark blue with a pattern of thin, light blue vertical lines of varying heights and widths. On the left side, there is a rectangular box with a light blue background and a thin yellow border. The text "The End" is centered within this box.

The End
